

BT-AX7000L

Adata X7000 Blue 7000mAh Powerbank

Product Overview

Adata AX7000-5V-CBL X7000 Blue Powerbank - universal mobile device battery, 12mm ultra thin, Li-polymer cell battery, aluminium housing with hair brush finish, 7000mAh with Dual USB output fast charging, 5V/2A input + 5V/ 2.4A output, 148x74x12mm, 210g, micro-USB input/ 2x USB output - with OVP, SCP, OTP, ODP, OCP(Over Charge Protection), OCP(Over-Current Protection)

Specifications

Overview:

X7000 shows bold and innovative technology in design and engineering, a bold move from traditional framework: ultra slim and stylish, combining with a hairline brushed and durable aluminum surface and tough glossy plastic panel. Inside is a 7000mAh power source with two USB ports totaling up to 2.4A for fast simultaneous charging of mobile devices that saves you precious time and improves overall safety and efficiency.

Features:

Sleek aluminum form factor

Our designers made the X7000 so grip-friendly, you will have no problem bringing it everywhere. With a slim and sleek form like that of a smartphone, the power bank uses stylish but durable aluminum surfaces and tough glossy plastic side panels for a chic look to place it apart from other power banks. Resulting in a hairline texture that's not just appealing to the eye and to the touch. It can also resist scratches, chipping, and annoying fingerprint smudges.

Portable power done ultra-slim

As mentioned before, part of the inspiration for the X7000 were smartphone form factors. That's why it's so thin at 12mm and weighs just 210g. The X7000 looks and feels like a savvy smartphone, fitting neatly in pockets, bags, purses, and lifestyles.

Choice of color scheme

As befits a style accessory, the X7000 arrives in three unique colors for you to choose from: titanium grey, blue, and red. Or better yet, maybe get them all?

Twin charge ports up to 2.4A

Top up two devices at once to save time and get back to work and enjoyment quicker. No need to line up devices or fuss over connections. The X7000 has dual USB outputs, delivering a max 2.4A as needed by connected devices.

ComX Computers

Product Specification Sheet

Packs multiple device charges

The high quality 7000mAh cells on the X7000 free you from dependence on wall sockets. Enough for three full typical 5" smartphone charges and one 10" tablet charge, the X7000 extends your range all day, while doing it in style.

Top quality components and safety-ensuring build

Like all ADATA power banks, the X7000 uses carefully tested and selected power cells. The aluminum and plastic enclosure is impact and fire resistant, while within sophisticated circuitry guarantees complete operational safety.

Multiple circuit protection

Smart sensors and breakers constantly monitor and regulate the X7000. Dedicated circuitry protects against overheating, overcharge, over discharge, overcurrent, overvoltage, and short circuiting. You get total peace of mind wherever you are.
