Performance for Daily Tasks

Handle your business applications and everyday workloads without slowdown. The Intel Core Ultra 5 processor with 10 cores and 20MB cache, combined with DDR5-5600 memory, delivers rapid performance for multitasking, data-heavy applications, and productivity software.

Smooth Multitasking and Security

Enjoy efficient multitasking with high-speed DDR5 memory. Protect sensitive data with TPM 2.0, secure startup, and encryption key handling. Built-in lock slots provide physical security when stepping away from your desk.

Connectivity Options

Easily connect multiple monitors, up to four FHD via DisplayPort daisy chaining or two 4K displays using HDMI and DisplayPort. With 8 USB ports, including 4 front-facing, connecting peripherals and external storage is straightforward. Wi-Fi 6 ensures fast and stable internet connectivity for downloads, streaming, and video conferencing.

Expandable and Future-Ready Design

The tool-less chassis allows easy upgrades of memory, storage, or additional expansion cards. Supports up to 64GB DDR5 RAM, up to 2TB SSD and 2TB HDD storage, and includes three PCIe expansion slots for additional devices.

Sustainable Construction

This desktop uses 43% recycled plastic, 50% recycled steel, and up to 100% recycled packaging. ENERGY STAR certified and EPEAT Silver registered, it balances performance with environmental responsibility.
