BTRY-TC2L-3XMAXX-01

Zebra 5200 mAh extended Battery with PowerPrecision Plus for TC22 / TC27

Product Overview

Zebra 5200 mAh extended Battery with PowerPrecision Plus for TC22 / TC27, Compatible with --> Zebra TC22 / TC27 Mobile computers

Specifications

Overview Summary:

The Zebra TC22/TC27 5200mAh extended battery is a dependable power upgrade for businesses that need longer runtime from compatible mobile computers. Designed for demanding work environments, this genuine Zebra PowerPrecision Plus battery supports productivity across retail, logistics, warehousing and field operations. For businesses in South Africa looking for reliable device power, this is a practical replacement or spare battery to keep teams moving. Buy now and keep your devices powered for longer.

With intelligent battery performance and extended capacity, this Li-Ion battery helps reduce charging interruptions and supports multi-shift usage. It is well suited for organisations that rely on Zebra mobility hardware every day. Shop now for a trusted power solution built for enterprise use. zebra.jarltech.com+1

Performance tier: High-capacity enterprise

Uses:mobile computer backup power, extended shift operation, field service devices, retail handhelds, warehouse scanners, logistics terminals

Overview:

Zebra 5200 mAh Extended Battery for TC22 and TC27 Mobile Computers
Designed to support longer shifts and more demanding workflows, the Zebra 5200 mAh extended battery delivers reliable power for TC22 and TC27 mobile computers. This high-capacity solution is engineered for businesses that depend on consistent device uptime, whether in retail, logistics, field service, or delivery operations. With advanced PowerPrecision Plus technology, it enables better battery management, helping teams maintain productivity without unnecessary interruptions.

Description:

This extended battery provides a substantial power upgrade for Zebra TC22 and TC27 devices, ensuring extended usage between charges. Built with Lithium Ion technology, it offers stable performance and efficient energy delivery. The integration of PowerPrecision Plus enhances battery intelligence, allowing users to monitor health, charge cycles, and overall performance more effectively. It is well suited for high-demand environments where device reliability directly impacts operational efficiency.

Features:

Reliable Power for Demanding Workflows
In fast-paced business environments, device downtime can lead to lost productivity. This 5200 mAh battery is designed to minimize those risks by extending operational hours and reducing the frequency of recharging. It is particularly valuable for mobile workers who rely on continuous access to applications, scanning, and communication tools throughout the day.

The battery integrates seamlessly with Zebra TC22 and TC27 mobile computers, maintaining compatibility without compromising performance or device ergonomics. Its design supports consistent power output, ensuring stable operation across various use cases.

Built for Compatibility and Efficiency
As part of the Zebra accessory ecosystem, this battery complements a wide range of operational setups. Whether devices are used in-store, in warehouses, or out in the field, it supports uninterrupted workflows. The PowerPrecision Plus capability also provides insights into battery status, helping IT teams manage fleets more effectively and replace batteries proactively when needed.

Key Technical Details

- Part number / SKU: BTRY-TC2L-3XMAXX-01
- Battery capacity: 5200 mAh
- Battery chemistry: Lithium Ion (Li-Ion)
- Rechargeable: Yes
- Battery type: Proprietary battery size
- Compatible devices: Zebra TC22 and TC27 mobile computers
- Application: Mobile computer power support

Optimized for Business Mobility
This extended battery is an essential component for organizations looking to maximize the performance of their Zebra TC22 and TC27 devices. By delivering longer runtime and improved battery intelligence, it supports smoother operations and reduces disruptions caused by power limitations.

For businesses that depend on mobile computing throughout the workday, choosing a higher-capacity battery like the BTRY-TC2L-3XMAXX-01 is a practical step toward improving efficiency and maintaining consistent productivity.
