

C5 CURVED W

Antec C5 Curved ARGB ATX ARGB Dual Chamber Mid-Tower Gaming Chassis - White

Product Overview

Antec C5 Curved ARGB ATX ARGB Dual Chamber Mid-Tower Gaming Chassis - White, Dual-Chamber Design with 4mm Curved Tempered Glass side panels, Vertical cooling Architecture supports up to 10 fans, Accommodates GPUS up to 410 mm in length, Supports CPU coolers up to 160 mm height, Includes 4 Pre-Installed Antec P12 PWM ARGB fans, Built-In Controller for RGB Lighting Management, Front I/O features USB 3.0 x2 and Type-C 3.2 Gen 2, Magnetic dust filters included on top and bottom

Specifications

Overview Summary:

Upgrade your battlestation with the Antec C5 CURVED ARGB gaming chassis, designed specifically for South African builders who demand style and performance. This sleek white mid-tower features stunning curved tempered glass panels that provide a panoramic view of your high-end components, while the vertical airflow system ensures optimal cooling for flagship GPUs and CPU coolers.

Equipped with four pre-installed ARGB fans and extensive radiator support, this dual-chamber case keeps your build clean and efficient. The back-connect design simplifies cable management, making it perfect for both first-time builders and seasoned enthusiasts looking to create a stunning visual centerpiece. Secure yours today and start building the PC you have always wanted by buying now.

Performance tier:High-End Gaming

Uses:PC gaming, content creation, custom water cooling, RGB lighting showcase, high-performance workstation

Overview:

The Antec C5 CURVED ARGB Mid-Tower Gaming Chassis transforms your desktop into a visual masterpiece with its unique dual-chamber design and panoramic curved tempered glass panels. This white chassis is engineered to accommodate flagship GPUs up to 410mm and large CPU coolers while maintaining exceptional airflow through a vertical cooling architecture that supports up to ten fans. Whether you are building an ATX, Micro-ATX, or Mini-ITX system, the C5 provides ample room for high-end components and extensive radiator support including top-mounted and bottom-mounted AIOs.

Description:

The Antec C5 CURVED ARGB (Part Number: C5 CURVED W) is a premium white gaming chassis designed to showcase your hardware without compromise. It combines aesthetic appeal with thermal performance, featuring dual curved 4mm tempered glass side panels that offer an uninterrupted view of the interior. The unit comes pre-loaded with four Antec P12 PWM ARGB fans and a controller for immediate immersive lighting effects. Its smart dual-chamber layout separates power supply cabling from the main build area, ensuring clean cable management and independent PSU cooling.

Designed specifically for enthusiasts who want their rig to stand out, this chassis eliminates the need for flat glass panels that can distort views or hide components. The vertical airflow system drives heat upward efficiently, keeping temperatures low even under heavy loads. For builders looking to upgrade later, the flexible motherboard support and extensive radiator options

allow for easy scaling of your cooling solution as your hardware evolves.

The front panel prioritizes connectivity with high-speed USB 3.0 ports and a USB Type-C 3.2 Gen 2 port, ensuring fast data transfer and modern device compatibility. Integrated magnetic dust filters on the top and bottom help maintain clean airflow by trapping debris before it enters the case. The inclusion of back-connect motherboard support further enhances the build quality by allowing cables to be routed behind the tray for a pristine front-facing aesthetic.

Features:

Key Highlights

- Dual curved 4mm tempered glass side panels provide a seamless panoramic view of your internal components and RGB lighting.
- Vertical cooling design supports up to 10 fans with optimal bottom-to-top airflow for rapid heat dissipation.
- Pre-installed four Antec P12 PWM ARGB fans include three reverse-blade intakes at the bottom and one rear exhaust, managed by a built-in controller.
- Dual-chamber layout features a top-mounted PSU compartment with 95mm of dedicated cable management space for a tidy build.
- Supports next-generation back-connect motherboards to route cables behind the tray for improved airflow and cleaner aesthetics.
- Extensive radiator compatibility allows for simultaneous installations including 360mm on top, 280mm on the right side, or bottom mounts.
- Front I/O panel includes dual USB 3.0 ports, one USB Type-C 3.2 Gen 2 port, and dedicated mic/audio jacks for convenient access.
- Magnetic dust filters are installed at both the top and bottom to protect internal components from airborne particles without restricting air intake.

When considering dimensions for your workspace, this chassis measures 46.5 x 28.5 x 40 cm and weighs approximately 7300g, making it a substantial yet manageable addition to any desk setup. The white finish adds a clean, modern touch that contrasts beautifully with the internal components and lighting effects.

The Antec C5 CURVED ARGB (Part Number: C5 CURVED W) represents a significant step forward for PC builders in South Africa who demand both style and substance. By combining thoughtful thermal engineering with a standout curved-glass design, it ensures your rig is not only powerful but also a genuine centrepiece of your battlestation.

Technical Specifications:

- Motherboard Support: ATX, Micro-ATX, Mini-ITX
- Side Panel Material: Tempered Glass (Curved)
- Included Fans: 4x Antec P12 PWM ARGB
- Maximum GPU Length: 410 mm
- Maximum CPU Cooler Height: 160 mm
- Radiator Support: Top (120/140/240/280/360mm), Right Side (120/140/240/280mm), Bottom (120/240/360mm), Rear (120mm)
- Front I/O Ports: Power Button, LED Control, USB 3.0 x2, Type-C 3.2 Gen 2 x1, MIC, HD-AUDIO
- RGB Lighting: Yes with included controller
- Colour: White
- Product Dimensions: 46.5 x 28.5 x 40 cm
- Weight: 7300g

What's in the Box

- 1 x Antec C5 CURVED ARGB ATX | Micro-ATX | ITX ARGB Dual Chamber Mid-Tower Gaming Chassis - White

Antec has spent decades engineering PC hardware for builders who expect performance and style in equal measure. This chassis reflects that commitment, bringing thoughtful cooling engineering and standout curved-glass design to enthusiasts building rigs they are genuinely proud to show off.

Specifications

Product Code	C5 CURVED W
Motherboard Support	ATX, Micro-ATX, Mini-ITX
Side Panel	Tempered Glass
Included Fans	4
Max GPU Length	410 mm
Max CPU Cooler Height	160 mm
Radiator Support	Top: 120 / 140 / 240 / 280 / 360mm,Right Hand Side: 120 / 140 / 240 / 280mm,Bottom: 120 / 240 / 360mm,Rear: 120mm
Front I/O	Power, LED Control Button, USB 3.0 x2, Type-C 3.2 Gen2 x1, MIC x1, HD-AUDIO x1
RGB Lighting	Yes
Colour	White
Product Dimensions	46.5 x 28.5 x 40 cm
Product Weight	7300g

FAQ

Which motherboard sizes are compatible with the Antec C5 CURVED ARGB?

This chassis supports ATX, Micro-ATX, and Mini-ITX motherboards, making it flexible for both first-time builders and enthusiasts looking to scale their setup.

Does this case come with fans and lighting included out of the box?

Yes, you receive 4 pre-installed Antec P12 PWM ARGB fans (three reverse-blade intakes at the bottom and one exhaust at the rear) along with a built-in ARGB controller for immediate ambience.

What is the maximum size of graphics card this dual-chamber case can accommodate?

The C5 CURVED ARGB features generous internal space designed to fit flagship hardware, supporting GPUs up to 410mm in length and CPU coolers up to 160mm tall.

How does the vertical airflow design assist with cooling high-performance components?

The chassis utilizes a unique bottom-to-top airflow scheme that supports up to 10 fans, accelerating heat dissipation naturally while allowing for large radiators on the top and bottom.

Are there specific cable management features for a cleaner build appearance?:

Absolutely; the dual-chamber layout includes a dedicated top-mounted PSU compartment with 95mm of cable space, and it supports next-generation back-connect motherboards to route cables behind the tray for a tidy front-facing view.
