Specifications

Overview Summary:

Upgrade your gaming setup with the Corsair HS35 v3 Wireless Gaming Headset, now available for South African gamers who demand premium performance. This Carbon-colored headset delivers up to 30 hours of battery life and immersive Dolby Atmos Spatial Audio on PC, ensuring you hear every crucial detail in your favorite titles. Whether you are playing on PC, PlayStation, Nintendo Switch, or Mobile, the tri-mode connectivity allows seamless switching between wireless and wired options without compromise.

Weighing only 250g, this lightweight headset features an adjustable floating headband for all-day comfort during intense gaming sessions. The detachable boom microphone ensures crystal-clear communication when you need it, while remaining invisible when you prefer solo listening. Don't miss out on the edge that competitive players rely on; buy now and experience professional-grade audio engineering at home or at the LAN.

Performance tier:High-End Gaming

Uses:PC gaming, Console gaming, Mobile gaming, Competitive multiplayer, Streaming, Music listening

Overview:

The Corsair HS35 v3 Wireless Gaming Headset in Carbon (Part Number CA-9011401-WW) redefines audio freedom for gamers who demand versatility without sacrificing quality. Designed to handle the rigors of competitive play and extended gaming marathons, this lightweight headset weighs only 250g, ensuring comfort from the first match to the final boss. Whether you are on PC, PlayStation, Mac, Mobile, or Nintendo Switch, the tri-mode connectivity allows seamless switching between ultra-low-latency wireless, Bluetooth streaming, and a wired connection for maximum reliability.

Description:

This high-performance headset combines 50mm neodymium drivers with Dolby Atmos Spatial Audio to create an immersive three-dimensional soundscape on PC. The detachable boom microphone offers precision communication when needed and can be removed for pure audio enjoyment, while the adjustable floating headband ensures a perfect fit for all-day wear. With up to 30 hours of battery life at 50% volume and a wireless range extending to 60ft, you can move freely without interruption.

Features:

Immersive Spatial Audio Experience

Situated firmly in the action, the HS35 V3 Wireless uses advanced audio processing to place sound exactly where it needs to

be. Powered by high-quality 50mm neodymium drivers and supported by Dolby Atmos Spatial Audio on PC via the Dolby Access app, players can hear footsteps approaching from above or enemy fire closing in from the left. This level of detail provides a tactical edge in fast-paced shooters, turning every sound into a strategic advantage without requiring active noise cancellation.

Tri-Mode Connectivity for Every Platform

Limited by a single connection method is no longer an option with this versatile headset. The HS35 V3 Wireless supports 2.4GHz wireless for competitive play, Bluetooth for casual mobile gaming and listening, and includes a durable 1.8m wired cable for platforms that require it. This flexibility means you can switch between your PC, PlayStation, Switch, and phone without hunting for adapters or swapping out equipment, keeping your focus on the game.

All-Day Comfort and Battery Life

Engineered to endure long sessions, the headset features an adjustable floating headband that distributes weight evenly across the top of the head. At just 250g, the design is so light you will barely notice it is there until you need to hear every detail in your game. The battery provides up to 30 hours of usage at moderate volume levels with a wireless range of up to 60ft, ensuring you never get cut off mid-match or worry about running out of power.

Key Technical Specifications:

FAQ

What platforms is the Corsair HS35 v3 Wireless compatible with?

The headset works seamlessly across PC, Mac, PlayStation, Mobile, and Nintendo Switch using its tri-mode connectivity options.

Can I use Dolby Atmos Spatial Audio on all devices?

No, Dolby Atmos Spatial Audio is available specifically for PC users via the free Dolby Access app to provide immersive 3D soundscapes.

How long does the battery last during gameplay?

You can enjoy up to 30 hours of wireless battery life at 50% volume, along with a wireless range of up to 60ft for freedom of movement.

Does this headset have active noise cancellation or RGB lighting?

The Corsair HS35 v3 Wireless does not feature active noise cancellation or RGB lighting, keeping the focus on pure audio and lightweight comfort.

Is the microphone always attached to the headset?

No, it features a detachable omnidirectional boom microphone that you can remove cleanly when switching to solo listening mode.
