Unitek Y-C609BK Black 3m Displayport M-m Cable

Product Overview

Unitek Y-C609BK Black 3m Displayport M-m Cable

Specifications

About this product

The Unitek 3m DisplayPort M-to-M cable delivers high definition digital video and audio over a single reliable link with support for up to 3840 x 2160 (4K 60Hz) resolution. Designed with premium copper conductors and gold plated connectors it reduces interference for stable signal transmission between DisplayPort enabled devices. Compatible with DisplayPort v1.2 sources and displays for seamless connectivity.

Overview Summary

Unitek Y-C609BK 3m DisplayPort Cable Black offers a flexible 3 meter length ideal for connecting computers, laptops, docking stations or media players to DisplayPort displays such as monitors and projectors. Its gold plated connectors and triple shielding help maintain high quality video and audio signals while minimizing electromagnetic interference. Supporting DisplayPort 1.2 and 4K resolution at 60Hz it provides crisp visuals for productivity, entertainment and professional use. The durable black jacket and solid build ensure long term reliability for daily use.

This cable is suitable for home, office and gaming setups where a stable high resolution link is needed without adapters or converters. Its plug and play connection makes installation effortless while maintaining compatibility with a wide range of DisplayPort enabled devices. With premium materials and a pragmatic design the Unitek DisplayPort cable is a dependable choice for extending display connections up to 3 meters.

Performance tier:Mid range video cable

Uses:PC to monitor, laptop to display, projector connection, docking station display

Description

The Unitek Y-C609BK DisplayPort cable is engineered for stable, high quality digital video and audio transmission between DisplayPort equipped sources and displays. With a generous 3 meter length it accommodates larger desk layouts, multiple display arrangements and meeting room installations while eliminating signal adapters. The cable construction includes pure copper conductors, a 32 AWG wire gauge and triple level shielding including aluminum foil, braid and ground layers for

enhanced interference protection. Gold plated connectors improve contact reliability and resist oxidation for sustained performance. Designed for compatibility with DisplayPort v1.2 standards the cable supports resolutions up to 3840 x 2160 (4K) at 60Hz for crisp visuals in everyday computing, high definition video playback and light gaming situations. Its black finish blends discreetly with most AV setups and the rugged jacket enhances durability for repeated use and handling.

Features

- 3 meter DisplayPort to DisplayPort cable for extended reach in desktops and installations.
- Supports up to 3840 x 2160 (4K 60Hz) resolution for vivid high definition video and audio transmission.
- Gold plated DisplayPort connectors for optimal signal transfer and corrosion resistance.
- Triple shielding (foil, braid and ground) to reduce EMI and RFI interference for cleaner signals.
- Pure copper conductors for strong signal integrity and durability.
- Plug and play design requires no drivers or configuration.

What's in the Box

- 1 x Unitek 3m DisplayPort M-to-M cable (Y-C609BK)

Specifications

- Brand: Unitek
- Model: Y-C609BK
- Cable type: DisplayPort M to M
- Length: 3 m
- Connector 1: DisplayPort Male
- Connector 2: DisplayPort Male
- DisplayPort version: 1.2
- Maximum resolution: 3840 x 2160 @ 60Hz
- Wire material: Pure copper
- Connector plating: Gold plated
- Shielding: Triple shield
- Color: Black

FAQ

What devices can this DisplayPort cable connect?

This cable connects DisplayPort enabled devices such as desktop computers, laptops, docking stations and graphics cards to displays like monitors or projectors that accept DisplayPort input.

Does this cable support 4K resolution?

Yes, the Unitek Y-C609BK supports up to 3840 x 2160 (4K) resolution at 60Hz when used with compatible video sources and displays.

Is any special software required to use this cable?

No, the cable uses a plug and play design and does not require any drivers or additional software to function once connected to DisplayPort ports.

Can this cable handle long term use and frequent plugging?

With gold plated connectors, robust shielding and a durable cable jacket the Unitek DisplayPort cable is built to withstand regular handling and connection cycles in home or office environments.
