UltraLAN RG59 Siamese coaxial & Power cable - 305m roll

Product Overview

UltraLAN RG59 Siamese coaxial & Power cable - 305m roll, Solid Copper conductor

Specifications

Overview:

UltraLAN RG59 Siamese Coax & Power Cable (305m)

The UltraLAN RG59 Mil Spec Siamese Coaxial Cable features a bare copper 0.81mm coaxial cable paired with 2x 0.5mm power wires to simplify installations. This cable allows CCTV installers to run both video and power to security cameras using a single cable run.

The coaxial cable is 75 Ohm and has a solid copper conductor (bare copper), along with a metal braid for reduced interference. This is an ideal cable for security, surveillance and CCTV applications where one needs to distribute video and power to cameras in remote locations.
