Specifications

About this product

The Microworld CAB73 Mini DisplayPort to VGA Female Cable is a compact 10 cm display adapter designed to connect a compatible Mini DisplayPort source to a VGA display cable. It provides a practical connection solution for compatible laptops and computers using legacy VGA monitors and projectors. Buy now from our website for a compact Mini DisplayPort to VGA connection solution.

Overview Summary

Microworld CAB73 Mini DisplayPort to VGA Female Cable

The Microworld CAB73 is a compact Mini DisplayPort to VGA adapter cable with a Mini DisplayPort male connector and VGA female connector. Its 10 cm cable length provides a short connection between a compatible Mini DisplayPort device and a VGA display cable.

This adapter is useful when connecting compatible computers or laptops with Mini DisplayPort output to monitors, projectors, or other display equipment that uses a VGA connection. The compact design makes it suitable for desktop setups, presentations, office environments, and portable computing applications where a Mini DisplayPort to VGA connection is required.

Performance tier: Essential display connectivity

Uses:laptop to VGA monitor connections, projector connections, office displays, presentations, legacy VGA display connectivity

Description

The Microworld CAB73 Mini DisplayPort to VGA Female Cable is designed for display connectivity between compatible Mini DisplayPort equipped devices and VGA based display equipment. The cable features a Mini DisplayPort male connection on

one end and a VGA female connection on the other, allowing a compatible VGA display cable to be connected to the adapter.

With a 10 cm cable length, the CAB73 offers a compact adapter format that can be useful for reducing strain caused by rigid adapters positioned directly against a device port. It can be used with compatible laptops and computers where Mini DisplayPort output is available and a VGA monitor or projector connection is required.

The CAB73 is suited to office workstations, educational environments, meeting rooms, presentations, and other installations that still use VGA display equipment. It provides a straightforward Mini DisplayPort male to VGA female connection in a compact cable design.

Features

The Microworld CAB73 provides a compact physical connection format for compatible Mini DisplayPort and VGA display setups.

- Mini DisplayPort male connector for compatible source devices
- VGA female connector for connection to a VGA display cable
- 10 cm cable length
- Compact cable design
- Suitable for connecting compatible devices to VGA monitors
- Suitable for connecting compatible devices to VGA projectors
- Useful for office, presentation and legacy display environments
- Product model CAB73

What's in the Box

- 1 x Microworld CAB73 Mini DisplayPort to VGA Female Cable

Specifications

- Brand: Microworld
- Model: CAB73
- Product type: Mini DisplayPort to VGA adapter cable
- Source connector: Mini DisplayPort male
- Display connector: VGA female
- Cable length: 10 cm
- Primary use: Connecting a compatible Mini DisplayPort source to a VGA display cable

FAQ

What is the Microworld CAB73 used for?

The Microworld CAB73 is used to connect a compatible Mini DisplayPort equipped device to a VGA display cable.

Does the CAB73 have a Mini DisplayPort male connector?

Yes. The CAB73 has a Mini DisplayPort male connector for connection to a compatible source device.

Does the CAB73 have a VGA female connector?

Yes. The adapter cable has a VGA female connector for connecting a VGA display cable.

How long is the Microworld CAB73 cable?

The CAB73 has a 10 cm cable length.

Can the Microworld CAB73 be used with a VGA monitor?

Yes, it is designed for connecting a compatible Mini DisplayPort source to a VGA display cable connected to a VGA monitor.

Can the CAB73 be used for projector connections?

Yes, it can be used where a compatible Mini DisplayPort source needs to connect to a VGA projector through a VGA cable.

What should I check before buying the CAB73?

Check that your source device has a compatible Mini DisplayPort output and that your display setup uses a VGA connection.
