

CAM-MET-MP

Unbranded Heavy-Duty Metal Security Camera mounting bracket

Product Overview

Unbranded Heavy-Duty Metal Security Camera mounting bracket, Tilt 90 degrees, Swivel 180 degrees

Specifications

Overview Summary:

A heavy-duty metal security camera mounting bracket provides a dependable solution for installing CCTV cameras in commercial, industrial, and residential environments. With 90degrees tilt and 180degrees swivel adjustment, it allows precise camera positioning while its robust metal construction helps reduce vibration and supports long-term reliability.

Designed for straightforward installation and secure mounting, this bracket is ideal for new surveillance installations or replacing worn mounts. Buy now and shop now to complete your security camera installation with a durable mounting solution built for everyday use.

Performance tier:Professional

Uses:CCTV camera installation, security camera wall mounting, surveillance system upgrades, commercial security, industrial surveillance, residential security camera installations

Overview:

Heavy-Duty Metal Security Camera Mounting Bracket for Surveillance Installations

Designed for reliable security camera installations, the heavy-duty metal security camera mounting bracket provides a strong and stable solution for professional surveillance environments. Built with a durable all-metal construction, this bracket helps reduce camera movement caused by vibration while offering improved resistance against physical interference. It is ideal for high-traffic locations, industrial areas, commercial properties, and other applications where dependable camera positioning is required.

The adjustable design allows installers to achieve the correct viewing angle with ease, making it suitable for a wide range of security camera mounting requirements. The product part number / SKU is CAM-MET-MP, making it easy to identify when ordering or managing installation components.

Description:

The Heavy-Duty Metal Security Camera Mounting Bracket is designed to provide secure and flexible camera positioning with 90 degree tilt and 180 degree swivel adjustment. Its strong metal build delivers long-lasting durability, while the adjustable locking mechanism allows users to fine-tune the camera angle for accurate surveillance coverage. This mounting bracket is a practical choice for CCTV installations requiring strength, stability, and easy adjustment.

Features:**Flexible Tilt and Swivel Adjustment**

This security camera mounting bracket offers versatile positioning options with a 90 degree tilt range and 180 degree swivel movement. Installers can easily adjust the viewing direction using the adjustment screws, allowing the camera to be positioned precisely for better monitoring coverage.

The bracket design includes separate controls for adjusting the angle and securing the holder in place, helping ensure the camera remains stable after installation.

Durable Metal Construction for Security Applications

Built from heavy-duty metal materials, this camera mounting bracket is designed to withstand demanding environments. The solid construction helps minimise vibration and movement, supporting clearer surveillance footage and reliable camera performance over extended periods.

Key benefits include:

- Heavy-duty all-metal construction for increased strength and durability
- Reduced camera vibration for improved image stability
- Strong resistance against physical impact and tampering
- Suitable for commercial, industrial, and high-traffic surveillance areas

Easy Installation and Reliable Camera Positioning

The bracket is designed for straightforward installation and adjustment, making it suitable for both professional installers and maintenance teams. Once mounted, the secure locking mechanism helps keep the camera firmly positioned while still allowing future angle adjustments when required.

Technical Details

- Product type: Heavy-duty metal security camera mounting bracket
- Part number / SKU: CAM-MET-MP
- Tilt adjustment: 90 degrees
- Swivel adjustment: 180 degrees
- Material: Metal construction
- Application: CCTV and security camera mounting

Ideal Uses

This mounting bracket is suitable for a variety of surveillance setups, including:

- Industrial security camera installations
- Commercial CCTV systems
- Warehouse and factory monitoring
- Outdoor and indoor security camera mounting
- Areas requiring stable and adjustable camera positioning
