Corsair 3500X RS-R ARGB Mid-Tower PC Case - White

Product Overview

Corsair 3500X RS-R ARGB Mid-Tower PC Case - White, Wraparound Tempered Glass front and side panels for full View of components, Three Pre-Installed RS-R ARGB fans included with RGB Lighting support, Supports motherboards with Reverse Connector Designs, Radiator mounting supports up to 360mm on top and side panels Plus 120mm rear Mount, Max GPU clearance of 425mm with Vertical GPU Mount support available, CPU Cooler height support reaches 170mm for High-Performance Air cooling, Front I/O features one USB 3.2 Gen 2x2 Type-C Port and two USB 3.2 Gen 1 Type-A Ports, Includes combined Audio In/Out jack on front panel connectivity, 2x internal 3.5" Drive bays and 2x internal 2.5" Drive bays for storage Expansion, Includes dust filtration and 45mm cable routing Space for clean Airflow Management

Specifications

Overview Summary:

Upgrade your setup with the Corsair 3500X RS-R ARGB Mid-Tower PC Case in sleek white, now available for South African builders who demand both style and substance. This premium chassis features a stunning wraparound tempered glass design that lets you display your custom rig from every angle, paired with three pre-installed RS-R ARGB fans to ensure optimal cooling and vibrant lighting effects right out of the box.

Built to accommodate everything from Mini-ITX to E-ATX motherboards, this case offers exceptional flexibility for high-end graphics cards and liquid coolers up to 360mm. Whether you are constructing your first custom PC or upgrading a battle-tested rig, the Corsair 3500X provides the space and airflow needed for peak performance. Buy now to secure one of the most versatile and visually striking cases on the market.

Performance tier:High-End

Uses:Custom PC building, gaming rigs, liquid cooling setups, content creation workstations, white theme builds

Overview:

The Corsair 3500X RS-R ARGB Mid-Tower PC Case in White (Part Number CC-9011323-WW) is designed for builders who demand a seamless blend of striking aesthetics and serious performance. This chassis features a unique wraparound design with removable tempered glass on both the front and side, ensuring your custom build becomes the focal point of any room. With three pre-installed RS-R ARGB fans providing immediate cooling and vivid lighting effects, the case delivers an impressive visual experience right out of the box while maintaining excellent airflow for high-performance components.

Description:

This premium mid-tower chassis combines a sleek all-white finish with extensive compatibility options to support everything from compact Mini-ITX systems to massive E-ATX builds. The inclusion of three pre-installed ARGB fans simplifies the assembly process, while the robust radiator mounting points allow for advanced liquid cooling loops up to 360mm. Designed with cable management in mind, it offers ample routing space and a clean interior layout, making it ideal for enthusiasts who value both form and function.

Features:

A View Worth Showing Off

Gone are the days when you had to hide your expensive components behind solid metal panels. The 3500X is engineered

ComX Computers

Product Specification Sheet

around a wraparound tempered glass design that puts your hard work front and center. Removable side and front panels allow for an unobstructed view of your motherboard, graphics card, and custom liquid cooling loops. When paired with the included RS-R ARGB fans, you can illuminate every angle of your build with customizable lighting effects, creating a stunning display that looks as powerful as it performs.

Cooling Without Compromise

Thermal management is critical for high-end systems, and this case supports configurations up to 3x 120mm or 2x 140mm fans across the top, side, and rear. The flexibility extends to liquid cooling as well, with support for radiators up to 360mm on both the top and side mounts. To ensure clean airflow paths, the interior includes a dedicated cable management system and 45mm of routing space behind the motherboard tray, keeping dust out and air flowing efficiently.

Built for Flexibility

Whether you are building a compact rig or a massive workstation, the 3500X accommodates Mini-ITX, Micro-ATX, ATX, and E-ATX motherboards up to 305mm x 277mm. It fully supports reverse connector motherboard designs for modern platforms. The case offers generous clearance with support for GPUs up to 425mm long and CPU coolers reaching 170mm in height. For those who prefer a vertical display, the chassis also supports GPU mounting via a separately sold riser card.

Key Features:

- Wraparound tempered glass front and side panels for full component visibility
- Three pre-installed RS-R ARGB fans with customizable lighting effects
- Supports Mini-ITX, Micro-ATX, ATX, E-ATX motherboards including reverse connector layouts
- Radiator support up to 360mm on top and side mounts for advanced cooling
- GPU clearance of 425mm and CPU cooler height support up to 170mm
- Front I/O panel featuring USB 3.2 Gen 2x2 Type-C, dual USB 3.2 Gen 1 Type-A, and audio in/out
- Dedicated cable management space and dust filtration for clean airflow

Technical Specifications:

The Corsair 3500X RS-R ARGB Mid-Tower PC Case is finished in a durable White color. It measures 46 x 24 x 50.6 cm and weighs approximately 10660g, providing a sturdy structure for heavy components. The case includes three fans and supports RGB lighting integration without requiring a separate power supply unit.

Radiator and Fan Support

- Top Mount: Supports 360mm, 280mm, or 240mm radiators
- Side Mount: Supports 360mm, 280mm, or 240mm radiators
- Rear Mount: Supports a single 120mm fan or radiator

Connectivity and Storage

The front I/O panel is equipped with high-speed connectivity including one USB 3.2 Gen 2x2 Type-C port, two USB 3.2 Gen 1 Type-A ports, and a combined audio in/out jack. For storage needs, the case provides two internal 3.5-inch drive bays and two internal 2.5-inch drive bays to accommodate your drives securely.

What's in the Box

- 1 x Corsair 3500X RS-R ARGB Mid-Tower PC Case - White

Corsair has spent decades at the forefront of PC hardware, engineering products that meet the exacting demands of builders, gamers, and overclockers worldwide. The 3500X reflects that legacy as a chassis designed with the performance, flexibility, and visual impact that enthusiasts expect from one of the world's most trusted names in PC components.

Specifications

Product Code	CC-9011323-WW
Colour	White
Product Dimensions	46 x 24 x 50.6 cm
Product Weight	10660g
Motherboard Support	Mini-ITX, Micro-ATX, ATX, E-ATX
Side Panel	Tempered Glass
Included Fans	3
Max GPU Length	425 mm
Max CPU Cooler Height	170 mm

Radiator Support

Top	360mm, 280mm, 240mm
Side	360mm, 280mm, 240mm
Rear	1x 120mm
Front I/O	1x USB 3.2 Gen 2x2 Type-C
	2x USB 3.2 Gen 1 Type-A
	1x Audio in/out
RGB Lighting	Yes
PSU Included	No
Product Dimensions	46 x 24 x 50.6 cm
Product Weight	10660g

FAQ

What motherboard sizes are compatible with this case?

The Corsair 3500X RS-R supports Mini-ITX, Micro-ATX, ATX, and E-ATX motherboards up to 305mm x 277mm, including reverse connector designs.

Does the case come with fans installed?

Yes, this mid-tower PC case includes three pre-installed RS-R ARGB fans that provide both active airflow and vivid lighting for your build.

What is the maximum graphics card length I can install?

You can fit a GPU up to 425mm in length, though vertical mounting requires a separately sold riser card.

Can I use liquid coolers with this chassis?

The case supports radiators up to 360mm on both the top and side panels, as well as a single 120mm radiator at the rear for effective thermal management.

Is a power supply included with the package?

ComX Computers

Product Specification Sheet

No, the PSU is not included in the box; only the Corsair 3500X RS-R ARGB Mid-Tower PC Case comes as part of the shipment.
