Corsair 3200D RS ARGB Smoke Mid-Tower PC Case

Product Overview

Corsair 3200D RS ARGB Smoke Mid-Tower PC Case; Supports 360mm AIO radiators in the top or front; 375mm GPU clearance (400mm with fans removed); Abundant cooling options with 9x 120mm fan mounts; 3x RS120 ARGB Fans included; Angled bottom fan mount for direct GPU cooling; Built-in GPU Anti-sag Stabilization Arm; Compatible with reverse-connector motherboards

Specifications

About this product

Buy the Corsair 3200D RS ARGB Smoke Mid-Tower PC Case for a high airflow, modern gaming build solution designed for performance and clean cable management. This ATX compatible chassis supports large graphics cards up to 375mm, advanced cooling with 360mm radiator support, and includes 3 x RS120 ARGB fans for enhanced airflow and lighting. Shop now and upgrade your PC build with reliable cooling, GPU stability, and premium internal space design.

Overview Summary

The Corsair 3200D RS ARGB Smoke Mid-Tower PC Case is a performance focused chassis designed for modern gaming and productivity systems. It combines a tempered smoke finish with high airflow engineering to support powerful components and stable thermal performance.

ComX Computers

Product Specification Sheet

This case supports up to 360mm AIO radiators in both the front and top positions, making it suitable for advanced liquid cooling setups. With 9 x 120mm fan mounting locations and 3 x RS120 ARGB fans pre-installed, airflow can be optimized for both CPU and GPU cooling efficiency.

Additional design features include an angled bottom fan mount for direct GPU cooling and a built-in GPU anti-sag stabilization arm, helping maintain long term hardware stability. It is also compatible with reverse-connector motherboards for cleaner cable management builds.

Performance tier:High performance gaming mid-tower

Uses:Gaming PC builds, workstation setups, high airflow systems, liquid cooling builds, GPU intensive systems

Description

The Corsair 3200D RS ARGB Smoke Mid-Tower PC Case is engineered for builders who demand airflow efficiency, GPU clearance, and modern aesthetics in one chassis. Its smoke tinted design offers a sleek look while maintaining visibility of internal ARGB lighting and components.

Built to support high performance gaming systems, this case accommodates large GPUs up to 375mm and provides flexible cooling options with support for multiple fan and radiator configurations. It is optimized for both air cooling and liquid cooling setups, making it suitable for entry level and enthusiast builds alike.

With integrated cable management features and reverse-connector motherboard compatibility, the case is designed to reduce clutter and improve airflow pathways, ensuring stable thermal performance under load.

Features

Designed for airflow, cooling efficiency, and modern PC builds.

- Supports up to 360mm AIO radiators in top or front positions
- Includes 3 x RS120 ARGB fans for enhanced cooling and lighting
- Supports up to 9 x 120mm fan mounting locations
- 375mm GPU clearance for high performance graphics cards
- Angled bottom fan mount for direct GPU cooling
- Built in GPU anti sag stabilization arm for hardware support
- Compatible with reverse connector motherboards for cleaner cable routing
- Smoke tinted panel design for a premium gaming aesthetic

ROOM FOR THE BIGGEST GPUS

The 3200D is a spacious mid-tower chassis designed for modern GPUs. With 375mm of clearance with front fans installed, even the most powerful GPUs have plenty of room to breathe. The PSU shroud also features 2x 120mm fan mounts, with the front one being angled directly at the GPU, providing even more cooling power for the hottest GPUs.

THREE RS120 ARGB FANS INCLUDED

Simply plug in the fans and customize your RGB lighting using your motherboard's ARGB software, including ASUS Aura Sync, MSI Mystic Light, ASRock Polychrome RGB, and GIGABYTE RGB Fusion.

DIRECT-TO-MOTHERBOARD CONNECTION

Reduce cable clutter by daisy chaining your RS ARGB Series fans together, controlling them all through a single 4-pin PWM connector and one +5V ARGB connector on your motherboard.

DESIGNED FOR SUPER-CLEAN BUILDS

Cable management is easy in the 3200D with support for reverse-connector motherboards, a built-in cable shroud, and ample tie-down locations throughout the chassis.

BUILT FOR THE REAL WORLD

Every detail of the 3200D is focused on performance and how your system runs day to day. From keeping your graphics card securely in place to directing airflow where it is needed most, these features work together to help your build maintain optimal performance.

SAG-FREE GRAPHICS CARDS

Every 3200D includes a built-in Anti-sag Stabilization Arm that is adjustable, so you don't have to worry about damaging your GPU or your PCIe slot.

ANGLED BOTTOM FAN MOUNT

An angled fan mount in the bottom of the case allows cool air to be channeled directly at the GPU for improved cooling and better GPU temps.

HIGH-AIRFLOW FRONT PANEL

Engineered for high airflow, the front panel delivers excellent cooling for high-power components with a unique style.

WIDE COOLING FLEXIBILITY

The CORSAIR 3200D is made to keep the hottest components cool with 2x 360mm radiator mounting locations and fan mounts throughout the chassis for continuous airflow.

Dimensions

The 3200D is a roomy chassis with plenty of space for fans, radiators, and liquid-cooling components.

Fan Capacity

There are 3x 120mm fans pre-installed with room for 6x additional 120mm fans or 4x 140mm fans for continuous airflow.

Radiator Capacity

There are 3x 120mm fans pre-installed with room for 6x additional 120mm fans or 4x 140mm fans for continuous airflow.

MODERN FRONT PANEL I/O

The top-mounted I/O ports grant easy access to a USB 3.2 Gen 2x2 Type-C 20Gb/s port for lightning-fast data transfers, a USB 2.0 Type-A, a combo audio/microphone jack, and a power button.

What's in the Box

- 1 x Corsair 3200D RS ARGB Smoke Mid-Tower PC Case
- 3 x RS120 ARGB fans pre-installed
- Accessory and installation hardware kit
- User installation guide

Specifications	
Product Code	CC-9011346-WW
Case Supported	Mini-ITX, MicroATX, ATX
Case Height	495mm

ComX Computers

Product Specification Sheet

Case Length	458mm
Case Width	219mm
Material	Steel, Tempered Glass, Plastic
Color	SMOKE
Case Size	Mid-Tower
Radiator Compatibility	120mm, 140mm, 240mm, 280mm, 360mm
Case Window	Tempered Glass
Compatible Liquid Coolers	H60, H100, H115, H150, NAUTILUS, TITAN
Internal 3.5" Drive Bays	1
Internal 2.5" Drive Bays	2
Maximum CPU Cooler Height	165mm
Maximum PSU Length	180mm
Case Front IO	(1x) USB 3.2 Gen 2x2 Type-C, (1x) USB 2.0 Type-A, (1x) Audio in/out
Maximum GPU Length	400mm
Weight	8.5kg
Case Expansion Slots	7 Horizontal
Case Power Supply	ATX
Radiator Support - Top	360mm, 280mm, 240mm
Radiator Support - Front	360mm, 280mm, 240mm
Radiator Support - Bottom	None
Radiator Support - Side	None
Radiator Support - Rear	120mm
Fan Support - Top	3x 120mm, 2x 140mm
Fan Support - Front	3x 120mm; 2x 140mm
Fan Support - Bottom	2x 120mm
Fan Support - Side	None
Fan Support - Rear	1x 120mm
Front IO Motherboard Connections	1x USB-3.2 Gen2x2 Type-E, 1x USB 2.0 9-Pin, 1x F_PANEL, 1x HD Audio
Reverse Connector Motherboard Support	Yes
Included Fans	RS ARGB Series
Dust Filtration	Yes
Cable Routing Space	24mm
RapidRoute Included	No
Left Side Panel	Tempered Glass
Right Side Panel	Steel
Vertical Mount Support	Unsupported

FAQ

What motherboard types are compatible with this case?

This case is compatible with ATX motherboards and supports reverse-connector designs for improved cable management.

Does the case support liquid cooling systems?

Yes, it supports up to 360mm AIO radiators in both the front and top positions for liquid cooling setups.

How many fans are included with the case?

The case includes 3 x RS120 ARGB fans pre-installed for immediate airflow and lighting performance.

What is the maximum GPU size supported?

The case supports GPUs up to 375mm in length, and up to 400mm with fans removed for extra clearance.

Is this case suitable for gaming builds?

Yes, it is designed for gaming and high performance systems with strong airflow, ARGB lighting, and GPU cooling optimization.
