Corsair 2800X RS-R ARGB Micro-ATX PC Case - White

Product Overview

Corsair 2800X RS-R ARGB Micro-ATX PC Case - White, Wraparound Tempered Glass front and side panels, 3x Pre-Installed RS120-r ARGB reverse-rotor fans included, 410mm Maximum GPU clearance length, Top radiator support up to 360mm for AIO Liquid coolers, Max CPU Cooler height of 170 mm, Front I/O includes USB 3.2 Gen 2x2 Type-C Port, Front I/O includes USB 3.2 Gen 1 Type-A Port, Built-In adjustable GPU anti-sag stabilisation Arm, Supports up to 10x 120mm fans for Airflow flexibility, Combination Drive plate supports 1x 3.5" HDD or 2x 2.5" SSDs

Specifications

Overview Summary:

Upgrade your setup with the Corsair 2800X RS-R ARGB Micro-ATX PC Case, now available for purchase in South Africa. This sleek white chassis combines a compact footprint with powerful cooling capabilities, featuring wraparound tempered glass and pre-installed ARGB fans to bring your build to life.

Designed for builders who demand performance without the bulk, it supports massive GPUs up to 410mm and top-mounted radiators for advanced liquid cooling. Secure your component with the built-in anti-sag arm and enjoy fast connectivity via USB-C front I/O. Shop now to start building your dream PC today.

Performance tier:High-End Gaming

Uses:PC gaming, home office workstation, streaming setup, compact gaming rig, custom water cooling build

Overview:

The Corsair 2800X RS-R ARGB Micro-ATX PC Case in white delivers a striking balance of compact design and powerful performance, making it an ideal choice for builders who want a premium look without sacrificing space. This chassis features a wraparound tempered glass exterior that showcases your internal components from multiple angles, while the included 3x RS120-R reverse-rotor ARGB fans ensure you have excellent airflow and lighting right out of the box. With support for large graphics cards up to 410mm and top-mounted radiators up to 360mm, this case handles high-end hardware with ease, all within a footprint that fits comfortably on most desks.

Description:

This premium Micro-ATX gaming chassis combines aesthetic appeal with serious cooling capabilities. Key benefits include ample room for modern graphics cards, advanced liquid cooling support, and a fully tempered glass design that highlights your custom build. The case comes equipped with high-performance ARGB fans to ensure optimal thermal management and stunning visual effects immediately upon setup.

Features:

Compact Design Meets High Performance

Designed specifically for Micro-ATX and Mini-ITX motherboards, the 2800X RS-R offers a smaller desktop footprint without compromising on internal space. This makes it perfect for users who need a powerful system but have limited desk real estate. Despite its compact size, the chassis is engineered to accommodate the most demanding components available today,

ensuring your PC remains cool and stable under heavy loads.

Advanced Cooling Capabilities

Cooling is never a compromise with this case, as it supports top-mounted radiators up to 360mm for robust all-in-one liquid cooling solutions. The roof can also handle 280mm or 240mm alternatives, while the side panel allows for an additional 240mm radiator installation. For air cooling enthusiasts, there are mounts for up to ten 120mm fans across various positions including top, bottom, front, and rear. The included RS120-R reverse-rotor fans draw cool air efficiently through the case while minimizing noise levels.

Generous Space for Graphics Cards

Modern graphics cards can be massive, but the 2800X is built to handle them with a generous 410mm of GPU clearance. To ensure long-term stability and protect your investment from sagging due to weight, the case includes a built-in adjustable GPU Anti-sag Stabilisation Arm. This feature keeps your graphics card securely seated in place, providing peace of mind for heavy-duty gaming or rendering tasks.

Showcase Your Build with Wraparound Glass

The wraparound tempered glass design covers both the front and side panels, offering a panoramic view of your internal components and custom RGB lighting. The reverse-rotor fan design on the included fans ensures unobstructed sightlines to the lighting effects. Additionally, full support for reverse-connector motherboards like ASUS BTF, MSI Project Zero, and GIGABYTE Project Stealth enables a completely cable-free interior view for a sleek, professional appearance.

The front I/O panel keeps your essential connections within easy reach, featuring a USB 3.2 Gen 2x2 Type-C port for ultra-fast data transfer speeds alongside a USB 3.2 Gen 1 Type-A port and a headphone/microphone combo jack. Storage flexibility is also considered with a combination drive plate that supports one 3.5-inch hard drive or two 2.5-inch solid-state drives. Dust filtration is integrated into the top, bottom, and side panels to keep internal components clean from debris.

The part number for this specific model is CC-9011348-WW. This ensures you are purchasing the exact white variant with the included reverse-rotor fans and anti-sag arm support.

Key Specifications

- Motherboard Support: Micro-ATX, Mini-ITX
- Max GPU Length: 410 mm
- Radiator Support: Top (360mm/280mm/240mm), Side (240mm), Rear (120mm)
- Included Fans: 3x RS120-R ARGB Reverse-Rotor Intake Fans
- Max CPU Cooler Height: 170 mm
- Front I/O: USB 3.2 Gen 2x2 Type-C, USB 3.2 Gen 1 Type-A, Audio Jack
- Side Panel Material: Tempered Glass
- Dimensions: 43.6 x 23.2 x 44.7 cm
- Weight: 7200g

What's in the Box

- 1 x Corsair 2800X RS-R ARGB Micro-ATX PC Case (White)
- 3 x RS120-R ARGB Performance Airflow Fans
- 1 x Case Accessory Box

About the Brand

Corsair has been engineering premium PC components and peripherals for over three decades, earning the trust of builders and gamers worldwide. From high-performance cooling to precision-crafted chassis, every product reflects a commitment to quality, innovation, and value, giving PC builders the confidence to create systems that truly stand out.

Specifications

Product Code	CC-9011348-WW
Motherboard Support	Micro-ATX, Mini-ITX
Side Panel	Tempered Glass
Included Fans	3
Max GPU Length	410 mm
Max CPU Cooler Height	170 mm
Radiator Support	Top: 360mm, 280mm, 240mm , Side: 240mm , Rear: 120mm , Front: None , Bottom: None
Front I/O	1x USB 3.2 Gen 2x2 Type-C, 1x USB 3.2 Gen 1 Type-A, 1x Audio in/out (Headphone/Microphone), Power
RGB Lighting	Yes
PSU Included	No
Country of Origin	China
Colour	White
Product Dimensions	43.6 x 23.2 x 44.7 cm
Product Weight	7200g

FAQ**What motherboard sizes does this case support?**

The Corsair 2800X RS-R ARGB is designed for Micro-ATX and Mini-ITX motherboards, making it ideal for compact builds without sacrificing performance headroom.

Can I install a large liquid cooler in this chassis?

Yes, the case supports top-mounted radiators up to 360mm, allowing you to use serious AIO liquid coolers for low-noise CPU cooling while maintaining a compact footprint. It also accepts 280mm and 240mm radiators on the top, with additional support for 240mm side mounts.

How much space is available for graphics cards?

This chassis offers an impressive 410mm of GPU clearance to accommodate even the longest modern graphics cards. To ensure long-term safety and stability, it also includes a built-in adjustable GPU Anti-sag Stabilisation Arm.

Does this case come with fans and lighting pre-installed?

The package includes 3x RS120-R ARGB reverse-rotor intake fans to provide immediate cooling and brilliant RGB lighting. The reverse-rotor design ensures unobstructed sightlines through the wraparound tempered glass panels.

What connection options are available on the front I/O?

The front panel features high-speed connectivity including a USB 3.2 Gen 2x2 Type-C port, a USB 3.2 Gen 1 Type-A port, and a headphone/microphone combo jack.

Is a power supply included with this case?

No, the power supply is not included in the box; you will need to provide your own PSU when building your system.
