Specifications

Overview:

Engineered to quickly dissipate heat from a CPU, the GeminII M4 is built with direct contact heat pipes that minimize CPU contact gaps and provide excellent heat conduction. The GeminII M4 is the ultimate answer to space-constrained setups such as mini-ITX, HTPC, and any small-sized desktop PC.

Features:

- Super low profile cooler (59mm / 2.3in height) with 4 direct contact heat pipes.
- A base engineered to minimize CPU contact gaps provides excellent heat conduction.
- Suitable for limited space applications (e.g. HTPC or slim systems).
- Newly developed thin fan profile delivers uncompromised cooling performance in a compact package.
- Unique heat pipe layout combines two very effective cooling methods to increase cooling efficiency while maintaining a low profile heat sink.
