The drawer includes 2 keys and an RJ11 cable for convenient setup. Buy the Postron CD-405 cash drawer online for a dependable POS cash handling solution.

Overview Summary

Postron CD-405 405 Series Cash Drawer

The Postron CD-405 is designed for organised cash handling at retail counters and point of sale stations. Its internal layout provides 4 note compartments and 8 coin compartments, helping separate cash denominations for faster and more organised

transactions.

The cash drawer supports three operating positions - Controlled Mode, Locked Mode and Manual Mode. Its RJ11 interface allows connection to a compatible PC or receipt printer using the included RJ11 cable, making it suitable for POS environments requiring an integrated cash drawer.

Performance tier: Retail POS cash management

Uses: Retail checkout, point of sale systems, cash registers, counter sales, cash management

Overview

The Postron 405 Series Cash Drawer is a compact, heavy-duty POS cash drawer with a 3-position key lock that supports controlled (electronic), manual, and fully locked modes for flexible, secure operation. It connects to a PC or receipt printer via the included RJ11 cable for automatic opening, and comes with two keys plus a 4-note and 8-coin removable till for organised cash handling. Built in metal with a front media slot for cheques/slips, it's designed for retail and hospitality environments that need reliable, plug-and-play cash management.

Description

The Postron CD-405 405 Series Cash Drawer provides a dedicated solution for managing physical cash at a retail or point of sale counter. Its black finish gives the unit a professional appearance that suits a range of checkout and cash handling environments.

The drawer features a 3-position lock that provides Controlled Mode, Locked Mode and Manual Mode. These operating options allow the cash drawer to be used according to the requirements of the connected POS setup or manual cash handling process.

Inside the drawer are 4 note compartments and 8 coin compartments, providing dedicated spaces for organising different denominations. This layout helps keep notes and coins separated and accessible during daily cash transactions.

The CD-405 uses an RJ11 interface and can connect to a compatible PC or printer via an RJ11 cable. An RJ11 cable is included with the product, along with 2 keys. The Postron CD-405 is suitable for retail counters, checkout stations and other POS applications where organised cash storage is required.
