Specifications

Overview Summary:

Dominate your games with the Corsair IRONCLAW RGB Gaming Mouse, designed specifically for competitive South African gamers who demand precision and durability. This lightweight, ergonomic right-handed mouse features a custom PixArt PMW3391 sensor delivering up to 18000 DPI for pinpoint tracking and ultra-durable Omron switches rated for over 50 million clicks. Whether you are executing split-second plays in MOBA titles or lining up headshots in FPS games, the textured side panels and contoured shape ensure a secure grip that never slips.

Equipped with customizable RGB lighting via CORSAIR iCUE software and a reliable wired connection for zero latency, this mouse is built to withstand intense gaming sessions. Upgrade your setup today by buying now and experience victory in every match.

Performance tier:High-End Gaming

Uses:FPS gaming, MOBA gaming, competitive esports, general productivity, precise aiming

Overview:

The Corsair IRONCLAW RGB gaming mouse, part number CH-9307011-AP, is engineered for competitive players who demand absolute precision and durability. Designed specifically for palm-grip users with larger hands, this lightweight 105g device offers a secure hold through textured rubber side panels while maintaining the agility needed for fast-paced FPS and MOBA titles. The sleek black aesthetic integrates seamlessly with any battle station, providing a professional look that does not compromise on performance.

Description:

This high-performance peripheral combines surgical tracking accuracy with long-lasting reliability, making it an ideal choice for serious gamers. The custom PixArt PMW3391 sensor ensures flawless cursor movement up to 18000 DPI, while the durable Omron switches guarantee consistent click response over millions of presses. Users can personalize their experience with dynamic RGB lighting controlled via CORSAIR iCUE software, allowing for a fully immersive and synchronized setup.

Features:

Precision Tracking Technology

Achieve pinpoint accuracy on every shot with the custom PixArt PMW3391 native optical sensor, which supports up to 18000 DPI with 1 DPI resolution steps. This advanced tracking system eliminates acceleration issues and ensures that every

micro-correction translates exactly as intended, whether you are making a precise long-range adjustment or sweeping across the map at high speed.

Durability Built for Competition

Relentless clicking during intense gaming sessions requires hardware that will not fail. The IRONCLAW RGB is fitted with ultra-durable Omron switches rated for over 50 million clicks, ensuring the mouse keeps pace with your most demanding playstyles tournament after tournament without skipping or registering missed inputs.

Ergonomic Design and Comfort

Weighing in at just 105 grams, this right-handed ergonomic mouse is sculpted to fit comfortably in palm-grip hands, reducing fatigue during extended play. The textured rubber-coated side panels provide a secure grip that prevents slipping even when your hands get sweaty, allowing you to focus entirely on the game without worrying about control.
