Specifications

Overview Summary:

Dominate your matches with the Corsair HARPOON v2 Wireless Gaming Mouse, engineered specifically for South African gamers who demand precision and reliability. Featuring the advanced CORSAIR MARKSMAN sensor capable of up to 26000 DPI, this mouse ensures pixel-perfect tracking whether you are making split-second flicks in shooters or navigating complex strategy maps with control.

The ergonomic right-handed shape provides lasting comfort during marathon gaming sessions, while versatile tri-mode connectivity lets you switch seamlessly between devices without lag. With 6 programmable buttons and long-lasting battery life, you have the tactical edge you need to outplay opponents. Upgrade your setup today and buy now to experience competitive gaming at its finest.

Performance tier: High-End Gaming

Uses: Competitive FPS gaming, MOBA strategy titles, general PC navigation, esports tournaments, streaming setups

Overview:

The Corsair HARPOON v2 Wireless Gaming Mouse, identified by part number CH-9311110-WW, is engineered for gamers who demand precision without compromise. Designed with competitive dominance in mind, this device offers the freedom to connect your way through versatile wireless technology while maintaining an ergonomic right-handed shape that ensures comfort during marathon gaming sessions. Whether you are executing split-second flicks or navigating complex strategy maps, the mouse acts as a seamless extension of your movements.

Description:

This high-performance peripheral combines the CORSAIR MARKSMAN sensor for pixel-precise tracking up to 26000 DPI with a robust tri-mode connectivity system that supports wireless flexibility. It features six programmable buttons allowing for custom binds and macros, all housed within a durable black chassis equipped with customizable RGB lighting. The result is a lightweight yet reliable gaming mouse built for extended play, offering up to 210 hours of battery life when RGB is disabled.

Features:

Precision engineered for competitive dominance
Achieve unparalleled accuracy in every match thanks to the advanced CORSAIR MARKSMAN sensor. This technology tracks with incredible fidelity up to a staggering 26000 DPI, ensuring that every swipe translates faithfully to the screen. You gain the

confidence to make rapid flick shots or execute fine, deliberate movements without fear of cursor betrayal, giving you the edge required for competitive play.

Tactical control at your fingertips
The HARPOON v2 places full command in your hands with six programmable buttons ready for custom binds. You can reassign functions to suit your specific playstyle, keeping loadouts and macros exactly where you need them. This setup allows you to keep your hands on the action instead of reaching for the keyboard, providing a tactical advantage when it matters most.

Freedom without the wire
Versatile tri-mode connectivity ensures you are never locked into a single setup, allowing you to connect via USB-C wired mode or 2.4GHz wireless depending on your battlestation needs. Backed by long-lasting battery life, this mouse is ready for session after session. You can enjoy up to 140 hours of play with RGB lighting active, or extend that to 210 hours when the lights are turned off.

Ergonomic design for lasting comfort
Grip with confidence through a shape specifically designed for right-handed users. The ergonomic contours keep your hand comfortable even during the most intense gaming sessions, preventing fatigue and ensuring consistent performance from start to finish. This iconic design has been refined over time to provide a secure hold that enhances control.

Technical specifications:

- Max DPI: 26000 DPI with CORSAIR MARKSMAN sensor
