Securely anchor your mouse and enhance your performance today by buying now from our online store.

Performance tier:High

Uses:Competitive gaming, FPS gameplay, creative work, office productivity, desktop setup

Overview:

The Corsair MM Anti-Fray Cloth Gaming Mouse Pad Large is engineered to deliver a stable and responsive surface for both competitive gaming and professional workflows. Measuring 450mm by 400mm, this large-format mat provides ample room for low-sensitivity sweeping movements or rapid high-speed flicks without restriction. The micro-weave cloth top layer strikes an ideal equilibrium between speed and control, ensuring that optical and laser sensors track accurately across the entire play area. Whether you are navigating fast-paced shooters, managing complex strategy games, or performing detailed creative tasks, this pad offers a consistent foundation for precision.

Built with durability in mind, the mouse pad features reinforced anti-fray stitching along all edges to prevent wear and maintain structural integrity over extended periods of use. A natural rubber base ensures the mat remains firmly planted on your desk during intense gaming sessions, eliminating unwanted sliding or shifting. The sleek black finish complements a wide variety of setups while providing a non-distracting background for your peripherals.

Description:

This product is designed for users seeking reliability and performance in their mouse pad choice. It combines a premium micro-weave cloth surface with a secure natural rubber base to ensure consistent tracking and stability. The anti-fray stitched edges enhance longevity, making it suitable for heavy daily use. Identified by the part number CH-941D060-WW, this Large 450 x 400mm model offers a balanced experience for gamers and professionals alike who require precise sensor accuracy and a comfortable surface feel.

Features:

Why Choose This Mouse Pad

The design focuses on enhancing user interaction with the computer by providing a surface that supports both high-speed movement and fine control. The texture of the cloth is optimized to reduce friction while maintaining enough grip for accurate cursor placement. Its compact yet spacious dimensions fit comfortably on standard desks, allowing users to utilize the full width of the pad for large mouse movements. The natural rubber construction adds weight and stability, preventing the pad from moving even during vigorous gameplay.

Key Highlights

- Large surface measuring 450 x 400 x 2mm for extensive movement space
- Micro-woven cloth delivers precise tracking and smooth glide

ComX Computers

Product Specification Sheet

- Balanced surface optimized for both speed and control
- Natural rubber base provides excellent grip on your desk
- Anti-fray stitched edges improve long-term durability
- Suitable for gaming, office work, and creative applications
- Classic black finish complements virtually any setup

FAQ

What are the exact dimensions of this mouse pad?

The Corsair MM Anti-Fray Cloth Gaming Mouse Pad Large measures 450mm x 400mm with a thickness of 2mm, providing ample space for broad movements.

ComX Computers

Product Specification Sheet

Will this mouse pad stay in place on my desk during intense use?

Yes, the natural rubber base material provides excellent grip to prevent unwanted movement, ensuring stability even during fast-paced gaming or heavy mouse usage.

Is this surface suitable for both speed and control?

The micro-woven cloth surface is engineered to deliver a balanced feel, offering smooth glide for speed while maintaining precision tracking for accurate sensor performance across various DPI settings.

How durable are the edges of this mouse pad?

This Large model features reinforced anti-fray stitched edges designed to improve long-term durability and help maintain the pad's shape over extended periods of use.

Does this mouse pad work with optical or laser sensors?

The engineered cloth surface enhances accuracy for both optical and laser sensors, making it suitable for a wide range of mice used in gaming, creative work, or productivity tasks.
