Product Overview

Corsair Clipper Pro Mini 60 Hall Effect Gaming Keyboard - Black, Corsair MGX HyperDrive Core hall effect Magnetic Switches with adjustable actuation, Hyper-polling up to 8, 000Hz for ultra-responsive inputs, FlashTap socd Technology for total movement Control, IP57 Waterproof and Dust-Resistant construction, Full key rollover (NKRO) for accurate, Conflict-free inputs, Vivid RGB backlighting with fn-shortcut Media and Volume controls, 5 OnBoard profiles stored in 8MB of Memory, Adjustable height Design, Wired USB Type-A connectivity with Braided cable

Specifications

Overview Summary:

Dominate your matches with the Corsair CLIPPER PRO MINI 60 Hall Effect Gaming Keyboard, engineered specifically for competitive gamers in South Africa who demand precision and speed. This ultra-compact 60% layout features revolutionary hall effect switches that allow you to customize actuation points, ensuring every keystroke registers exactly when you need it. With hyper-polling technology reaching up to 8,000Hz, you will experience zero-lag responsiveness that gives you the critical edge in split-second victories.

Built to withstand the rigors of intense gaming sessions, this keyboard boasts an IP57 rating for waterproof and dust resistance, protecting your investment from spills and debris. The vivid RGB backlighting and onboard memory allow you to store up to five custom profiles directly on the device, ensuring your setup travels with you wherever you play. Secure your competitive advantage today by buying now at our online store.

Performance tier:High-End Competitive

Uses:Esports gaming, PC gaming, FPS gameplay, MOBA strategy, competitive typing

Overview:

Corsair CLIPPER PRO MINI 60 Hall Effect Gaming Keyboard - Black Overview:

The Corsair CLIPPER PRO MINI 60 (Part Number: CH-979101J-NA) is engineered for the discerning gamer who demands absolute precision and speed without sacrificing desk space. This compact 60% keyboard strips away unnecessary keys to focus entirely on performance, delivering a layout that fits perfectly in crowded setups while providing full control for competitive play. By utilizing advanced Hall Effect technology, this device ensures that every keystroke is registered with zero lag, giving players the tactical advantage needed to turn milliseconds into victories.

Description:

This high-performance gaming keyboard combines durability with cutting-edge switch technology, making it ideal for intense gaming sessions and spill-prone environments. It features customizable actuation points via CORSAIR MGX Hyperdrive Core switches, an industry-leading 8,000Hz polling rate for instant responsiveness, and FlashTap SOCD technology to prevent input conflicts. With IP57 waterproofing, onboard memory for five profiles, and vibrant RGB lighting, it offers a tailored experience that adapts to your playstyle while standing up to the rigors of daily use.

Features:

Designed for Competitive Performance

The CLIPPER PRO MINI 60 is built around the core philosophy that speed and control are non-negotiable. Its compact footprint allows for increased mouse movement room, which is critical for low-sensitivity players in FPS titles. The board integrates rapid trigger technology alongside multi-action support, ensuring that your inputs are processed exactly as intended. Whether you are executing complex combos or reacting to split-second threats, the hardware delivers consistent performance where it counts most.

Precision and Customization

Gone are the days of being limited by a single actuation point. The magnetic Hall Effect switches allow for deep customization through Rapid Trigger, Smart Tap, and Tap Lock modes. This means you can fine-tune how your keyboard responds to light touches or heavy presses based on the specific requirements of the game you are playing. The system supports up to 8,000Hz hyper-polling, which drastically reduces input latency and ensures that your actions translate to screen movement instantly.

Durability for Long Sessions

Competitive gaming often involves long hours in unpredictable environments. This keyboard is rated IP57 for waterproof and dust resistance, meaning it can withstand accidental spills and debris without failing. The braided USB Type-A cable ensures a robust connection that resists tangling and wear over time. With full key rollover (NKRO) capability, you can press multiple keys simultaneously without any ghosting or missed inputs, ensuring your commands are always executed cleanly.

Key Performance Specifications

- CORSAIR MGX Hyperdrive Core Hall Effect magnetic switches with adjustable actuation points
- Hyper-polling rate of up to 8,000Hz for ultra-low latency inputs
- FlashTap SOCD technology eliminates key conflicts for total movement control
- IP57 waterproof and dust-resistant construction for high durability
- Full Key Rollover (NKRO) ensures accurate multi-key registration
- 5 onboard profiles stored in 8MB of memory for portable customization
- Vivid RGB backlighting with FN shortcut media and volume controls
- Compatible with PC, Mac, and XBOX One via CORSAIR WEB HUB software

Technical Details

The keyboard operates using a wired USB Type-A connection and features an adjustable height design for ergonomic comfort. Weighing in at 414 grams, the unit includes WIN lock functionality controlled via FN shortcuts to prevent accidental interruptions during gameplay. The layout is designed for North American users, ensuring key placement matches standard expectations while maintaining the sleek aesthetic of the black finish.

What's in the Box

- 1 x Corsair CLIPPER PRO MINI 60 Hall Effect Gaming Keyboard - Black

Corsair continues to set the standard for gaming peripherals by focusing on engineering solutions that competitive players can rely on. The CLIPPER PRO MINI 60 represents a commitment to quality, delivering hall effect precision and rugged durability in a package designed to give gamers the edge when it matters most.

FAQ

What operating systems and devices are compatible with this keyboard?

The Corsair CLIPPER PRO MINI 60 works seamlessly with PC, Mac, and XBOX One systems. It requires Windows 10 or macOS 10.15 and utilizes CORSAIR WEB HUB software for customization.

Does this keyboard offer adjustable actuation points?

Yes, it features CORSAIR MGX Hyperdrive Core hall effect magnetic switches that allow you to tune your keystrokes with Rapid Trigger, Multi-Action, Smart Tap, and Tap Lock customisation tailored to your playstyle.

How durable is the keyboard against spills and dust?

The device is rated IP57 for waterproof and dust-resistant durability, ensuring it can withstand daily competitive gaming conditions, spills, and dust without compromising performance.

Can I save my custom settings to use on different computers?

Absolutely. The keyboard includes 8MB of onboard memory capable of storing 5 distinct profiles, allowing you to carry your specific setup with you wherever you play.

What is the maximum polling rate for input responsiveness?

This gaming keyboard supports hyper-polling up to 8,000Hz for near-instant precision and zero-lag inputs, alongside FlashTap SOCD technology to eliminate key conflicts during intense gameplay.
