Specifications

Overview:

The CORSAIR iCUE 220T RGB Airflow is a mid-tower ATX smart case with a high airflow layout and three included SP120 RGB PRO fans for spectacular RGB lighting controlled via CORSAIR iCUE software.

Features:

HIGH AIRFLOW LAYOUT

Structured to improve your system's cooling, complete with a steel grill front panel for optimal air intake.

THREE INCLUDED SP120 RGB PRO FANS

Includes three CORSAIR SP120 RGB PRO fans, each equipped with eight individually addressable LEDs around the hub (24 total).

SMART CASE, SMART LIGHTING

Plug up to 6 of the same CORSAIR RGB fans directly into the included iCUE Lighting Node CORE to control your RGB lighting without the need for a fan hub, making for brilliant lighting effects right out of the box with CORSAIR iCUE software.

Solid Steel

The 220T RGB Airflow's steel construction and easy to remove front plate ensure sturdy and resilient durability along with a striking look.

Powerful Airflow

Keep your components cool with room for up to 6x 120mm fans, 4x 140mm fans, or up to a 360mm* radiator in the front.

Fits up to Four Drives

Flexible storage options include two 2.5in trays and two more trays in a removable cage that fit additional 3.5in or 2.5in drives.

ComX Computers

Product Specification Sheet

Keep it Clean

Removable dust filters in the floor, roof and front keep your system clean for years after the build is finished.

Intelligent Control. Unlimited Possibilities.

Powerful CORSAIR iCUE software brings your system to life with dynamic RGB lighting synchronized across all your iCUE compatible products, including fans, RGB LED light strips, DDR4 memory, keyboards, mice and more.

COMPATIBILITY:

- Mini-ITX
- MicroATX
- ATX
