CL-O015-PL00BL-A

Thermaltake TT Sync Controller TT Premium Edition - 9 port

Product Overview

Thermaltake CL-O015-PL00BL-A TT Sync Controller TT Premium Edition, 9 port LED hub for synchronizing Thermaltake addressable LED products

Specifications

Overview:

TT Sync Controller TT Premium Edition

TT Sync Controller TT Premium Edition by Thermaltake is a 9 port LED hub for synchronizing Thermaltake addressable LED products with ASUS, GIGABYTE and MSI motherboards. Once you have connected the products with the controller and downloaded ASUS Aura Sync, GIGABYTE RGB Fusion or MSI Mystic Light Sync on your PC, you can control the lights directly from the software without installing Riing Plus RGB software and any extra lighting controllers. Unlock your imagination, and brighten up your watercooled RGB system through TT Sync Controller TT Premium Edition.

Features:

TT Premium

To continue achieving the corporate mission of delivering the perfect user experience, Thermaltake developed "TT Premium" with the essence of combining supreme quality products with a new logo design. TT Premium is far more than just a guarantee of quality. Behind the name, it represents the passion in DIY, Modding and Thermaltake's desire to be the most innovative brand in the PC hardware market. To satisfy the demand of the high-end PC users, TT Premium follows its core values of

Excellent Quality, Unique Design, Diverse Combinations and Boundless Creativity to provide a high performance PC product for every enthusiast.

Add up to 9 Thermaltake Addressable LED Products

TT Sync Controller is capable of handling up to 9 Thermaltake addressable LED products. Connect the products of your choice to it, and set the lights conveniently via ASUS Aura Sync, GIGABYTE RGB Fusion and MSI Mystic Light Sync. Please check below for the supported product list:

Sync with Motherboard RGB Software

Designed to synchronize with ASUS Aura Sync, GIGABYTE RGB Fusion and MSI Mystic Light Sync, TT Sync Controller supports motherboards that have Aura Addressable Header (ASUS), Digital Pin Header (GIGABYTE) or JRAINBOW (MSI), allowing you to control the lights directly from the above-mentioned software without installing Riing Plus RGB software. For more details, please visit ASUS, GIGABYTE and MSI.

*Caution: the motherboard signal connector only supports 5V header.

Convenient SATA Power Input

Manufactured with a stable SATA power input in mind, TT Sync Controller safely and reliably powers up to 9 addressable LED products. Direct power from PSU prevents stray current when the controller is in use.

Easy Application

TT Sync Controller supports a wide range of Thermaltake addressable LED products, providing a convenient way to control the lights directly from ASUS Aura Sync, GIGABYTE RGB Fusion and MSI Mystic Light Sync without the need of extra lighting controllers and software. 3 PWM signal cables and 2 mainboard signal bridge cables are included in the pack.

Specifications:

P/N	CL-O015-PL00BL-A
Dimension	90 x 90 x 7.5 mm
Product Support	Riing Plus 12/14 (CL-F053/F054/F056/F057/F059)
	V-GTX 1080Ti Plus ASUS/MSI(CL-W194/W195)
	Lumi Plus LED Strip(CL-O014-PL00SW-A)
	Floe 240/360/280(CL-W157/W158/W167)
	PR22-D5 Plus(CL-W187-PL00SW-A)
	RL360 Plus(CL-W182-AL00SW-A)
	W4 Plus(CL-W181-CU00SW-A)
LED Synchronize	ASUS Aura Sync
	GIGABYTE RGB Fusion
Device Connector	9 Pin * 9
Power Connector	SATA
Rated Voltage	12 V & 5V
Weight	85 g
