Performance tier:Mid-range

Uses:Tracking keys, locating bags, finding luggage, monitoring backpacks, tracking wallets, locating personal belongings, travel item tracking

Overview:

UGREEN CM829 Smart Finder Tag Tracker for Samsung Galaxy Devices

The UGREEN CM829 Smart Finder Tag Tracker is a compact Bluetooth tracking solution designed for Samsung Galaxy users who want an easy way to keep track of everyday valuables. With Samsung SmartThings compatibility, this smart tracker helps you locate items such as keys, bags, wallets, and luggage directly from your Galaxy phone or tablet. The tracker provides reliable nearby locating through Bluetooth, while SmartThings network support allows you to check the last known location when your item is outside the Bluetooth range.

Designed for convenience and long-term use, the UGREEN CM829-55769 Smart Finder Tag Tracker includes an 80dB ring alert, location history tracking, custom ringtone options, and a replaceable CR2032 battery that delivers up to 18 months of theoretical battery life. Its compact design makes it simple to attach to important belongings and monitor them through the Samsung SmartThings app.

Description:

The UGREEN CM829 Smart Finder Tag Tracker helps prevent lost items by providing smart location tracking for Samsung Galaxy users. It connects seamlessly with Samsung SmartThings, allowing quick setup and easy management from compatible Android devices. The loud 80dB alert makes nearby items easier to find, while location history provides additional tracking information when you need to retrace where an item was last seen. With a replaceable battery, custom alert settings, and phone-finding functionality, this Bluetooth tracker offers a practical solution for everyday organisation and security.

Features:

Smart Tracking with Samsung SmartThings Integration

The UGREEN Smart Finder Tag Tracker is built specifically for users within the Samsung Galaxy ecosystem. It works with Samsung SmartThings, allowing you to manage and monitor your tracker directly from your compatible smartphone or tablet. Setup is simple, and the tracker integrates smoothly with Android 9.0 or later devices.

When your item is outside the direct Bluetooth connection range, the SmartThings app can help display the most recent available location, giving you better visibility of important belongings wherever they may be.

Find Lost Items Quickly with Loud Alerts

Locating misplaced items around your home or office is easier with the built-in 80dB ring alert. Whether your keys are hidden

behind furniture or your bag is in another room, the strong audio notification helps you find items faster.

The SmartThings app also allows ringtone and volume customisation, making it easier to adjust alerts based on your surroundings.

Location History and Phone Finding Function

The UGREEN CM829 tracker provides location history information, allowing you to review previous tracking records and better understand where an item was last detected. This is useful when trying to retrace your steps after misplacing valuable belongings.

A convenient double-tap button function lets you trigger a ring alert on your connected Samsung phone from the tracker, helping you locate your phone when it is nearby.

Long Battery Life and Compact Everyday Design

Powered by a replaceable CR2032 battery, the UGREEN CM829 Smart Finder Tag Tracker offers up to 18 months of theoretical operating time. The long-lasting battery design reduces maintenance while keeping your belongings protected for extended periods.

Its lightweight and compact form makes it suitable for attaching to a variety of everyday items, including:

- Keys and keyrings
- Backpacks and handbags
- Luggage and travel cases
- Personal accessories and valuables
