Coolermaster GA241 24" FHD Gaming Monitor

Product Overview

Coolermaster GA241 24" FHD 1MS FreeSync VA 100Hz

Specifications

Overview:

The GA241 is a FHD monitor with up to 100Hz refresh rate with Adaptive Sync support. With all the necessary features and specifications, the GA241 is a value-oriented monitor that provides exceptional performance in both gaming and work applications.

Features:

FIND YOUR BALANCE
GA241 with a 23.8" panel at FHD resolution provides stunning visuals for your gaming and work-related applications. The GA241 can be your main monitor to tackling spreadsheets during the day as well as playing games and enjoying entertainment during the night.

100Hz + 1ms
GA241 provides a fluid 100Hz refresh rate with 1ms response time, giving clearer and more responsive images for gaming as well as overall productivity uses.

DEEPER ENHANCED CONTRAST
GA241's VA panel produces deeper, darker blacks for an enhanced contrast level, leading to higher picture quality. With a 4000:1 contrast ratio, GA241's VA panel is capable of reproducing a contrast level 4x higher than that of a standard IPS panel.

Adaptive Sync
GA241 comes with Adaptive Sync support, providing an extra-smooth, tear-free experience in your games. Gain a competitive edge over your opponents with less motion smearing and clearer visuals in the games you play.

Low Blue Light and Flicker Free
GA241 is flicker free and has a low blue light mode to further protect your eyes from potentially harmful blue light emissions.

PICTURE MODES

Choose the picture mode your want for any scenario you may encounter.

Minimalistic Aesthetic
GA241 sticks to the basics a with a no-nonsense design focusing on a minimalistic aesthetic. The clean design is sure to seamlessly fit into your work and play setup.

Connectivity Options
Connect your devices with the I/O ports consisting of:

- 1 x VGA
- 1 x HDMI 1.4
- 1 x 3.5mm Headphone Jack
