Canyon SEP-4 Stereo Earphone with Microphone - Red

## Product Overview

Canyon SEP-4 Stereo Earphone with Microphone - Red, 1.2m flat cable, Flat anti-tangling cable, Inline Microphone, 3 sizes of Earbuds included, 10 mm Driver Diameter, 3.5-mm minijack

## Specifications

### Overview:

#### Stereo earphones with flat cable and microphone

You can use these earphones to brighten up your trip by listening to the music, audio content or watching funny videos. These earphones are ideal for using on the road - the flat cable doesn' t tangle inside your pockets and 10-mm drivers provide excellent sound! The bass will impress even the most demanding music lovers. The built-in microphone allows you to receive calls and communicate with friends while walking on the street. 3 different sizes of ear cushions are included to the set to provide top comfort for your ears.

- Flat anti-tangling cable
- Inline microphone
- Bass driven stereo
- 3 sizes of earbuds included
- Cable length: 120+/-5 cm
- Driver diameter: 10 mm

### Specifications:

|                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |                                                      |
