Specifications

Overview:

True wireless stereo headset TWS-5

These wireless headphones are designed for those who are constantly on the move and love to listen to music in high quality playback. The latest version of Bluetooth 5.3 ensures stable pairing both with the audio source and between the right and left earbuds. In addition, thanks to this protocol, the operating time of the headset has been increased up to 7.5 hours. Clear and surround stereo sound will allow you to enjoy your favorite music in high quality. The TWS function allows you to pair it with a second BT TWS speaker for immersive stereo sound experience. The headset allows you to receive phone calls and use voice assistant without touching your smartphone. To charge the headphone box, a USB Type-C cable is used, the same one used in most modern smartphones. The comfortable design of the ear buds with silicone ear tips ensures a snug fit in the ear. Additional ear cushions in different sizes allow you to choose the right ones for you, ensuring the most comfortable fit. Reliable audio gadget for those who love an active lifestyle!
