Corsair iCUE Link QX120 RGB 120mm PWM fans starter kit - Black

Product Overview

Corsair iCUE Link QX120 RGB 120mm PWM fans starter kit - Black, 120mm x 25mm fans x3, RGB LED Colour, PWM Control, RGB Link compatibility, 16.44 - 63.1 CFM fan Airflow, 400 - 2400 rpm Speed, 3x Corsair QX120 RGB fans, 1x iCUE Link system Hub, 1x iCUE Link cable 600mm

Specifications

Overview Summary:

Upgrade your PC build with the Corsair iCUE Link QX120 RGB 120mm PWM Fans Starter Kit, now available for fast delivery across South Africa. This premium kit includes three high-performance fans featuring magnetic dome bearings for exceptional silence and a dedicated system hub that simplifies installation with single-cable connectivity. Experience brilliant RGB lighting effects like the exclusive Time Warp mode while maintaining optimal cooling temperatures thanks to built-in sensors and smart PWM control.

Whether you are building a silent gaming rig or a high-performance workstation, this starter kit offers the perfect balance of airflow, noise reduction, and aesthetic customization. Secure your system upgrade today by buy now on our store and enjoy seamless integration with the iCUE ecosystem for total control over your setup.

Performance tier:Premium

Uses:PC cooling, silent computing, RGB lighting effects, cable management, high airflow systems

Overview:

The CORSAIR iCUE LINK QX120 RGB 120mm PWM Fans Starter Kit redefines PC building with a groundbreaking single-cable ecosystem that simplifies setup and reduces clutter. This kit includes three high-performance fans, each equipped with four distinct light loops and an included iCUE LINK System Hub for seamless control. By utilizing a network of smart, interconnected components, users can automatically detect and configure their cooling system without the hassle of complex wiring. The fans operate quietly thanks to magnetic dome bearings that minimize friction, while PWM technology ensures precise speed adjustments ranging from 400 RPM up to 2400 RPM. With airflow capabilities reaching 63.1 CFM and a static pressure rating ideal for restricted spaces, this starter kit delivers excellent thermal performance. The integrated temperature sensors allow for dynamic cooling management, and the Zero RPM mode ensures the fans stop spinning entirely during low-load scenarios for absolute silence.

Description:

The CORSAIR iCUE LINK QX120 RGB Starter Kit offers a complete cooling solution designed for modern PC builders who value aesthetics and performance. This product combines powerful airflow with stunning visual customization, featuring 34 RGB LEDs per fan spread across two distinct light zones for brilliant illumination from any angle. The exclusive Time Warp lighting mode freezes fans in time, while the iCUE software provides an intuitive interface to manage temperature sensors and lighting effects. Part number CO-9051002-WW ensures you are getting the authentic Corsair kit which includes three QX120 RGB fans, a central system hub, and the necessary 600mm connection cable for a clean build.

Features:

Effortless Single-Cable Setup

Building a PC has never been easier thanks to the iCUE LINK technology that unites your components into one cohesive network. Instead of managing multiple wires for power and data, this system uses a single connector to link all compatible devices in a chain configuration. This approach significantly reduces cable clutter inside your case and allows fans to connect directly to the System Hub or other compatible components freely. The smart ecosystem communicates two-way data between the hub and each fan, enabling advanced features like temperature monitoring and automatic configuration without manual intervention.

Silent Cooling with Magnetic Dome Bearings

Achieve powerful airflow without the noise by utilizing fans equipped with magnetic dome bearings that offer exceptionally low

Product Specification Sheet

friction. The PWM control allows for precise speed regulation from 400 RPM to 2400 RPM, ensuring your system stays cool under heavy loads while maintaining silence during idle times. The Zero RPM mode further enhances this experience by stopping fan rotation completely when the temperature is within safe limits, resulting in near-silent operation for gaming or media consumption. Sound levels are kept between 10 and 37 dBA, making it an ideal choice for quiet workspaces or high-performance rigs.

Sophisticated RGB Lighting and Control

Illuminate your build with a vibrant display of colors powered by 34 individual LEDs per fan. The lighting is distributed across two distinct zones on either side of the fan, ensuring brilliant illumination visible from any angle within your case. Users can access exclusive modes like strobing Time Warp effects that freeze the fans in time for unique visual flair. Through the iCUE software, you gain full control over the entire setup, creating a fully immersive lighting experience synchronized with other compatible Corsair devices.

The technical specifications below outline the performance metrics and physical dimensions of this high-efficiency cooling kit designed for 120mm mounting points.

- Fan Size: 120mm x 25mm
- Airflow Range: 16.44 to 63.1 CFM
- Static Pressure: Up to 3.8 mm-H₂O
- Speed Control: 400 to 2400 RPM via PWM
- LED Color: RGB with 34 LEDs per fan
- Power Draw: 1.02A maximum
- Sensor Type: Built-in temperature sensor in every smart fan

What's in the box

The package is designed to provide everything needed for a complete installation right out of the box. You will receive three CORSAIR QX120 RGB fans, each ready for mounting and setup. Included with these fans is one iCUE LINK System Hub which serves as the central control point for the entire network. To connect all components, a 600mm iCUE LINK cable is provided to ensure sufficient length for flexible case layouts.

- 3x CORSAIR QX120 RGB Fans
- 1x iCUE LINK System Hub
- 1x iCUE LINK Cable, 600mm

For those seeking the specific model identifier for inventory or ordering purposes, this product corresponds to part number CO-9051002-WW. The kit is compatible with standard 120mm fan mounts and supports both static pressure airflow requirements and general case ventilation needs. With its ability to integrate seamlessly into the iCUE ecosystem, users can manage their entire PC environment through a single intuitive software interface.

Specifications:

Weight	0.984
Fan Size	120mm x 25mm
LED Color	RGB
Package Quantity	3
Power Draw	1.02A
PWM Control	Yes
Sound Level	10 - 37 dBA
Fan Static Pressure	0.17 - 3.8 mm-H ₂ O
LINK Compatibility	RGB

ComX Computers

Product Specification Sheet

Fan Airflow	16.44 - 63.1 CFM
Flow Type	STATIC PRESSURE
Speed	400 - 2400 RPM

FAQ

What components are included in the Corsair iCUE Link QX120 RGB Starter Kit?

The kit includes three 120mm x 25mm QX120 RGB fans, one iCUE LINK System Hub, and a single 600mm iCUE LINK cable.

How does the single-cable technology simplify installation?

This system uses a network of smart components that automatically detect and configure themselves, allowing all devices to connect directly to the next in a chain via one connector to reduce cable clutter.

Can I control fan speeds and lighting through software?

Yes, the fans feature PWM control with speeds ranging from 400 RPM up to 2,400 RPM and include Zero RPM mode for silent operation at low loads. You can also use CORSAIR iCUE software to manage RGB effects like Time Warp and access temperature sensors in each fan.

How much airflow and static pressure do these fans provide?

These fans deliver up to 63.1 CFM of airflow with a maximum static pressure of 3.8 mm-H₂O, making them suitable for pushing air through restrictive components while maintaining efficient cooling.

What makes the lighting unique on this fan model?

Each fan contains 34 RGB LEDs distributed across two distinct light zones and four distinct light loops, allowing you to view brilliant lighting from any angle with modes like strobing Time Warp.
