A Functional Spectacle

Revenger's 2-Zone RGB backlight has two functions: first, it allows you to know which configuration profile you're currently using. Second, it enhances the gaming atmosphere you enjoy while gaming. In addition, it offers easier configuration and customization, macro recording and sharing between devices. everything you might ask for, and all with a very convenient and intuitive interface.

In order to minimize the time you spend recording macros and maximizing the time you spend using them, COUGAR's Macro Arsenal: record your macro once and use it again on another COUGAR UIX compatible device, or export individual macros to share with your friends. Enjoy your gaming sessions with this powerful software.
