Product Overview

PQi RF05-0016R011J Connect210 5-in-1 miCroUSB (5 or 11 pin) MHL connection kit - with MHL/HDMI out + miCroSDHC/SDXC + SDHC/SDXC + miCroUSB + USB - Black with leds indicator - 67x25x11mm

Specifications

Overview:

The Connect 210 Five-in-One MHL Connection Kit to fulfill the desire of consumers for a high quality, modern, intelligent lifestyle powered by the integrated functionality of mobile devices. Connect 210 allows two way file transmission between microSD or SD cards used in digital single lens reflex camera and mobile device memory cards. Your USB flash drive can also be connected to your mobile phone as an easily expandable, convenient mobile storage using the USB 2.0 slot on the Connect 210. You can enjoy high definition TV display and sound of media files on your mobile device using Connect 210 by connecting the MHL slot to a power source using an HDMI cable and the micro USB slot. Equipped with two types of mobile connectors, micro USB and micro 11P, the Connect 210 is compatible with multiple mobile device models and provides great versatility and convenience. The streamlined all-in-one nature of the Connect 210 transforms mobile entertainment media into a home theater, and allows you to always travel light wherever you go.

Features:

Effortlessly switch between the MHL and standard host machine modes, eliminating any obstacles in transfer

A connection kit specifically designed for mobile devices such as smart phones (HTC ONE X, Samsung Galaxy S2/S3/Note2/Note3, LG Nexus 4, etc.), tablets, cameras, laptops, and TV, allowing the transfer and sharing of files between different devices.

Multiple transfer interfaces for simultaneous transfer of video and audio files and charging

Provides many types of transfer interface, including MHL, Host, SDHC, MicroSDHC, Micro USB Power, etc., enabling video and audio entertainment while simultaneously charging through the Micro USB port. Low battery is no longer an issue, thanks to the multiple functions of the device.

Thoughtful dual connector design

Equipped with two types of connectors - the micro USB 11 Pin, and the micro USB 5 Pin, satisfying the requirements of different mobile devices.

ComX Computers

Product Specification Sheet

LED indicator clearly shows the operational status

The integrated LED indicator clearly shows the operation and transfer status with a simple push. The LED light flashes red when a USB is inserted, flashes blue when a SD or microSD card is inserted, and flashes orange when a HDMI cable is inserted. The slim streamline appearance makes it compact and easy to carry.
