Corsair Hydro Series H80i V2 High Performance Large-diameter CPU Cooler

Product Overview

Corsair Hydro Series H80i V2 High Performance CPU Cooler Large-diameter, Easy to Bend and Low Evaporation Tubing Eliminates any Leakage, Dual 120mm High-Torque PWM Fans Included, Requires Chassis with a Rear / Top mount 120mm Fan Location, Compatibility: AMD: AM2, AM3, FM1, FM2 | Intel LGA: 1150, 1151, 1155, 1156, 1366, 2011, 2011-3

Specifications

Overview:

The Hydro Series H80i v2 is a high performance, all-in-one liquid CPU cooler that works with standard 120mm radiator mounts. The extra-thick 49mm x 120mm radiator and dual SP120L PWM fans provide the excellent heat dissipation you need for high performance CPUs. It's Corsair Link compatible, so you can customize cooling performance, monitor system temperature, and change the color of the RGB LED lighting.

Features:

Extra-thick radiator
The 120mm radiator works with standard 120mm fan mounts for wide compatibility, but has a depth of 49mm for increased cooling surface area and faster, more efficient cooling.

Customized cooling performance
You can select the speed of the dual SP120L PWM fans via the Corsair Link control panel or any standard fan speed utility. And, you have options: use just one fan to save space, or install both in a push-pull configuration for extra cooling efficiency.

Built-in Corsair Link
Attach the included Corsair Link cable to a USB header on your motherboard and download the free Corsair Link software to unlock even more power. You can customize cooling performance, monitor coolant and CPU temperatures, and change the color of the RGB LED lighting from the default white to match your system or to change color based on temperature readings and other inputs.

High-performance CPU cooling made simple
The H80i v2 is a closed loop design that comes pre-filled. It includes a modular, tool-free mounting bracket for faster installation, and it features improved coldplate and pump designs for highly tuned efficiency.

About Hydro Series Liquid CPU Coolers

Corsair Hydro Series CPU coolers give you the power of liquid cooling in a compact, easy-to-install package. They offer superior cooling for higher overclocking performance, without the complexity of traditional water cooling kits.

Compatibility:

- Intel™ LGA 1150, 1151, 1155, 1156, 1366, 2011, 2011-3
- AMD™ sockets FM1, FM2, AM2, AM3

Specifications	
Product Code	CW-9060024
Cold Plate Material	Copper
Fan Specification	120mm (x2)
Radiator Material	Aluminum
Socket Support	AMD: AM2, AM3, FM1, FM2, Intel LGA: 1150, 1151, 1155, 1156, 1366, 2011, 2011-3
Tubing	Large-diameter, low permeability
