SIMPLE, FOCUSED PERFORMANCE

Renowned CORSAIR engineering delivers high-performance, low-noise cooling, enabling your CPU to reach its full potential.

MAXIMUM CONTACT

The slightly convex design ensures optimal contact with your CPU's integrated heat spreader, with thermal paste applied in an optimized pattern to speed up installation.

HIGH HAIRFLOW AND STATIC PRESSURE

RS120 Fans deliver powerful airflow with high static pressure to push air through the radiator. CORSAIR AirGuide technology and Magnetic Dome bearings ensure excellent cooling performance while keeping noise to a minimum.

DAISY-CHAINED CONNECTIONS

Simplify your system wiring by daisy-chaining your RS fans and connecting them to a single 4-pin PWM fan header on your motherboard.

QUIET AND EFFICIENT
