Corsair iCUE Link Titan 360 RX LCD White AIO - 360mm radiator - Liquid CPU Cooler

Product Overview

Corsair iCUE Link Titan 360 RX LCD White AIO - 360mm radiator - Liquid CPU Cooler, RGB Lighting, 3 fans, Copper Cold plate material, Aluminum radiator material, 120mm x 25mm fan dimensions, Cooling Socket support - Intel 1851 / Intel 1700 / AMD AM5 / AMD AM4, 300 - 2100 rpm fan Speed, 10.4 - 73.5 CFM fan Airflow, 360mm radiator size, 450mm tubing length, Digital fan control Method

Specifications

Overview:

iCUE LINK TITAN 360 RX LCD Liquid CPU Cooler - White

The CORSAIR iCUE LINK TITAN RX LCD delivers high-performance, ultra-quiet cooling with optimized thermal performance, streamlined iCUE LINK connectivity, and dynamic RGB lighting.

Features:

iCUE LINK TITAN RX LCD

HIGH-PERFORMANCE AIO CPU COOLER WITH RGB FANS

BRILLIANT IPS LCD DISPLAY

The custom 2.1" 480x480 LCD screen can be controlled via iCUE, enabling you to select from 16.7 million custom colors or choose from pre-defined animations and data displays. It now includes full in-app GIPHY integration, giving you access to thousands of your favorite memes and GIFs.

POWERFUL AND EFFICIENT ALL-IN-ONE CPU COOLING

For cutting-edge systems that need to get the most out their CPUs, the TITAN RX LCD towers above the competition. Thousands of hours of in-house engineering culminate in a CPU cooler that combines unparalleled performance, impressively quiet acoustics, and simplified iCUE LINK connections.

PEAK COOLING POWER

Push airflow through radiators like never before at low, medium, and high speeds. RX Series fans deliver high airflow and static pressure, while keeping noise as low as possible.

FLOWDRIVE COOLING ENGINE

Designed in-house by CORSAIR's expert engineers, the pump is powered by a three-phase motor with a higher flow rate and even lower noise levels than its predecessors. Add to that a precision-engineered cold plate surface profile that maximizes contact with your CPU's IHS, and you have a recipe for consistently lower temperatures.

CAPSWAP MODULAR DESIGN

It's never been easier to change the look or functionality of your AIO. Switch the default pump cap with any CapSwap module (sold separately) in seconds, completely tool-free, and it's almost like a brand-new cooler.

EASY INSTALLATION FOR INTEL AND AMD CPUs

Includes mounting brackets and backplates for fast installation on a wide range of socket types, including modern Intel LGA 1851/1700 and AMD AM5/AM4.

PUMP CAP

The TITAN RX LCD's unique pump cap design shows off the lighting from 44 individually addressable RGB LEDs around the pump.

DETACHABLE SIDE PLATES

Each RX RGB fan comes with a pair of decorative side plates, providing a choice between a translucent window or a CORSAIR wordmark.

FAN LIGHTING

Eight individually addressable RGB LEDs per fan display mesmerizing effects, easily synchronized with your pump lighting.

EXTREME PERFORMANCE THERMAL PASTE

For top-notch performance, every detail in the heat transfer and dissipation chain matters.

All TITAN RX LCD CPU blocks include pre-applied CORSAIR XTM70 Extreme Performance Thermal Paste for maximum heat transfer from your high-end processor to the cooler cold plate.

Specifications	
Product Code	CW-9061026-WW
Product Length	396
Product Width	125
Product Height	125
Lighting	RGB
Radiator Dimensions	396mm x 120mm x 27mm
Number of Fans	3
Cold Plate Material	Copper
Radiator Material	Aluminum
Fan Dimensions	120mm x 25mm
Cooling Socket Support	Intel 1851, Intel 1700, AMD AM5, AMD AM4
Fan Speed	300 - 2100 RPM +/-10%
Fan Airflow	10.4 - 73.5 CFM
Fan Static Pressure	0.12 - 4.33mm-H2O
Noise Level	10 - 36 dBA
Radiator Size	360mm
Tubing Length	450mm
Tubing Material	Black Sleeved Low-Permeation Rubber
Fan Control Method	Digital
AMD Processors Supported	Ryzen
Intel Processors Supported	Core i9, i7, i5, i3, Pentium, Celeron
PWM	No
Weight	2.59
