DISK01

Notebook lock disk for tabets / laptops without a kensington lock - Silver

Product Overview

Notebook lock hole disk for tablets / laptops that require a kensington lock. Zinc Alloy - silver colour. Add a kensington lock slot onto any tablet or laptop. Sticks onto chassis (3M adhesive sticker included). Basic security for opportunistic thieves as this will destroy the plastic chassis if they attempt to steal the unit by force. For metal structures, like PC chassis, we recommend adding additional securing measures.

Specifications
