If you are looking to refresh your setup with reliable quality and standout style, buy now and give your keyboard a distinctive Afterglow finish. Shop now and elevate your typing experience.

**Performance tier:**Enthusiast

**Uses:**mechanical keyboard customisation, typing, gaming, office work, home setup upgrades

### Overview:

Enhance your mechanical keyboard with the Ducky SA Profile Afterglow keycap set, designed for users who value both style and performance. Built with double shot ABS construction, this 108 key ANSI layout set delivers long lasting legends and a distinctive SA profile typing experience. The Afterglow colorway brings a vibrant, multi tone aesthetic to your desk while maintaining compatibility with a wide range of standard mechanical keyboards using MX style switches.

Whether you are upgrading a full size board or refreshing a compact setup, this Ducky keycap set offers dependable quality and a premium look without backlight dependency.

### Description:

The Ducky SA Profile Afterglow 108 key keycap set is crafted from durable double shot ABS to ensure legends remain crisp and fade resistant over time. Designed in the classic SA profile, these high profile keycaps provide a sculpted, satisfying typing feel ideal for enthusiasts and daily users alike. With ANSI layout support and compatibility with MX switch type mechanical keyboards, this multi color keycap set is perfect for full size, TKL, and 60 percent layouts. Its non backlit design highlights the bold Afterglow color scheme, making it a standout addition to any keyboard setup.

### Features:

**SA Profile Typing Experience**
The SA profile is known for its tall, sculpted shape and curved tops that create a distinctive tactile feel. Many keyboard enthusiasts prefer SA keycaps for their retro inspired look and deeper typing acoustics. The sculpted rows are carefully shaped to match natural finger movement, delivering comfort during long typing or gaming sessions.

**Durable Double Shot ABS Construction**
Manufactured using double shot ABS, these Ducky keycaps are built for clarity and longevity. The legends are molded as a separate layer of plastic, preventing fading or wear even after extensive use. This production method ensures:

- Crisp, long lasting legends that resist wear
- Smooth surface texture for comfortable typing
- Reliable durability for everyday work or gaming

**Broad Compatibility with MX Switch Keyboards**
Designed for ANSI layout mechanical keyboards, the Ducky SA Profile 108 key set supports a wide range of standard layouts. It is compatible with:

- Full size 108 key keyboards
- Tenkeyless TKL layouts
- 60 percent compact keyboards
- Most MX switch type mechanical keyboards

This flexibility makes it an excellent upgrade option whether you use a Ducky keyboard or another MX compatible model.

**Afterglow Multi Color Design**
The Afterglow color scheme combines multiple tones to create a vibrant, eye catching setup. Since the keycaps do not support backlighting, the color design takes center stage, offering a clean and bold appearance that stands out in both professional and gaming environments.

**Technical Details**

- Brand: Ducky
- Model: DKSA108-USADZZWSG
- Series: SA Profile
- Material: ABS double shot
- Layout: ANSI
