compatibility with modern applications.

Connectivity is supported through 1 x HDMI port and 1 x DisplayPort, enabling flexible display configurations. The package includes a keyboard and mouse, delivering a ready-to-use desktop solution out of the box.

Performance tier:Entry level

Uses:Office work, web browsing, education, light business applications

Overview

Essential business tower and small form factor desktops that deliver best-in-class security and manageability. With 10th Gen Intel processors.

Description

The Dell OptiPlex 3080 SFF is engineered for dependable day to day performance in environments where space is limited and uptime is essential. Its compact chassis integrates clean internal layout design with ample airflow, ensuring stability during extended use. The Intel i3-10105 processor supports multitasking across productivity applications, while the 8GB memory ensures smooth operation for typical workloads.

The 256GB M.2 NVMe SSD provides the system with rapid load times and improved responsiveness compared to traditional hard drives. Windows 11 Pro enhances workflow with business focussed features, improved security, and streamlined access to tools and apps. The DVDRW drive offers additional flexibility for physical media requirements, making the system useful for users who still rely on discs.

The HDMI and DisplayPort outputs allow versatile display setups including single or dual monitor configurations. The included keyboard and mouse allow the system to be deployed immediately, simplifying setup for both office and home users.

Features

- Compact SFF design - Saves desk space while maintaining strong thermal stability.
- Intel Core i3-10105 CPU - Provides efficient performance for office and home applications.
- 256GB M.2 NVMe SSD - Ensures fast boot times and responsive performance.
- Windows 11 Pro - Offers business grade security and modern productivity features.
- Multiple display outputs - Includes 1 x HDMI and 1 x DisplayPort for flexible screen setups.
- Keyboard and mouse included - Provides a complete ready to use system.

What's in the Box

- Dell OptiPlex 3080 SFF Desktop PC
- Keyboard
- Mouse
- Power cable

FAQ

Does the Dell OptiPlex 3080 SFF support dual monitors

Yes. The system includes 1 x HDMI and 1 x DisplayPort, allowing two displays to be used at the same time.

Is the RAM upgradable

Yes. The OptiPlex 3080 SFF supports RAM upgrades, allowing users to improve multitasking performance if required.

Is this PC suitable for office and home productivity work

Yes. The Intel i3 CPU, 8GB RAM, and NVMe SSD make it well suited for typical productivity, browsing, communication, and light business applications.

Does it include peripherals

Yes. A keyboard and mouse are included, making the system ready to use after installation.

Can this PC run Windows 11 Pro efficiently

Yes. The hardware configuration meets the performance requirements of Windows 11 Pro and provides a smooth user experience.
