speeds. DDR5 technology improves data throughput, enabling smoother multitasking across applications, browser tabs, and productivity tools. The Intel Core i3 processor boosts up to 4.7GHz, ensuring stable performance for day-to-day operations.

Security and reliability for business use

Data protection is integrated at the hardware level through TPM 2.0, supporting secure boot processes and encryption management. Physical security options such as a lock slot and padlock loop add another layer of protection in shared or office environments.

Flexible connectivity and display support

This desktop accommodates a wide range of peripherals and display configurations, making it adaptable to different workspace setups. It supports multiple monitors for improved productivity and offers both wired and wireless connectivity options.

Key connectivity highlights:

- Wi-Fi 6 and Bluetooth support for fast and stable wireless connections
- Up to four Full HD displays via DisplayPort with daisy chaining support
- Dual 4K display capability using HDMI 2.1 and DisplayPort
- Eight total USB ports including front-facing access for convenience

Designed to scale with your needs

The internal layout allows straightforward upgrades, making it suitable for growing business requirements. Tool-less access simplifies maintenance and component replacement.

Upgrade potential includes:

- Support for up to 64GB DDR5 memory across two DIMM slots
- Storage expansion up to 2TB SSD and 2TB HDD
- Additional expansion via PCIe slots for networking or audio enhancements

Efficient design with responsible materials

The chassis incorporates recycled materials and meets recognized energy efficiency standards. This reduces environmental impact while maintaining professional-grade build quality.

Optimized for Windows 11 Pro productivity

Running Windows 11 Pro, the system integrates modern security protocols and productivity tools. AI-assisted features such as Copilot enhance workflow efficiency, enabling faster task completion and improved multitasking across applications.
