Designed around you

- The right look: Modern designs allow the OptiPlex 7000 Small Form Factors to fit in beautifully in any modern workspace.
- Sustainably built: Contains up to 60% post-consumer recycled materials to minimize environmental impact.
- Simplify upkeep: Now easier to maintain thanks to tool-less service without removing the bezel.

Made to work as hard as you

- Powered up: Windows 11 Modern Standby provides an instant on/instant off experience, offering constant connectivity.
- Take on any task: Built with 12th Gen Intel Core processors with new Hybrid Core technology to free space for more complex workloads.
- High-speed access: New Wi-Fi 6E support provides greater network flexibility, faster transfers and reliable connections for secure collaboration.

Achieve more every day

- Increased productivity: Accomplish more with multitasking via DDR5 memory, ideal for transitioning smoothly between workload-intense applications.
- Broaden your horizons: Intel 12th Gen integrated graphics with support for up to 4 independent displays.

Dell Optimizer

- Personalized performance with the world's most intelligent PCs: Our built-in Artificial Intelligence automatically improves critical areas of your PC in the background, enhancing application performance with adaptive technology from ExpressResponse.
- ExpressConnect: Optimizes conference calls and connectivity so you can work better from anywhere.
- Collaborate like you're there: Intelligent Audio optimizes your sound quality and reduces background noises with automated tuning and neural noise-cancellation, so you can hear and be heard.
- Simplified manageability: Optimize your fleet of systems to perform its best with manageability features and productivity gains straight from the Dell Optimizer interface.

Leader in sustainability

OptiPlex was our first product to be made with recycled plastic in 2007 and the first to use materials from our closed-loop supply chain in 2014. Today OptiPlex contains up to 60% recycled material, has over 60 EPEAT registered products, more than 50 TCO 8 Certified configurations, and energy Star 8.0.

Eco-Labels

This product is EPEAT Gold and ENERGY STAR qualified (on select configurations). EPEAT registration varies by country.

Products and Packaging

Dell Technologies is transitioning to products and packaging made from recycled or renewable resources, and improving products' energy efficiency. We are also working towards reducing our greenhouse gas emissions within our operations and with our direct supply chain partners. Read more about our commitment to sustainability and our 2030 Social Impact goals [here](#).

Carbon Footprint

One of Dell's primary goals is to minimize our environmental impact. We aim to reduce the carbon footprint of our products throughout their lifecycle, from development to recycling and everything in between. [about this product's carbon footprint here](#).
