Specifications

About this product

The Unique KALOC DZ220-J Dual Desk Mount Monitor Arm Bracket is designed to support two monitors with screen sizes ranging from 17 to 32 inches, with 9kg load capacity per monitor and 18kg total capacity. Constructed from durable SPCC alloy steel, it features VESA 75 x 75mm and 100 x 100mm compatibility and an adjustable tilt range of +/-70 degrees for flexible screen positioning. Ideal for home offices and professional workstations, this black dual monitor mount helps create a more organised and space-efficient desk setup. Buy this KALOC dual monitor desk mount online in South Africa today and upgrade your workspace.

Overview Summary

Unique KALOC DZ220-J Dual Monitor Desk Mount Bracket

The Unique KALOC DZ220-J is a dual monitor desk mounting solution designed for users who want to position two screens within a single workstation. Supporting monitors in the 17 to 32-inch size range, this bracket offers a combined load capacity of 18kg, with each monitor supported up to 9kg. The recommended monitor size range is 17 to 27 inches, with specified supported screen sizes including 17, 19, 24, 25 and 27 inches.

Manufactured from SPCC alloy steel, the bracket provides a sturdy mounting structure for compatible monitors. Its VESA mounting compatibility supports both 75 x 75mm and 100 x 100mm mounting patterns, while the maximum +/-70-degree tilt adjustment allows users to angle their screens to suit their viewing preferences. The black finish provides a clean appearance for home and professional office environments.

With its dual-screen configuration, the KALOC DZ220-J is suitable for office productivity, multitasking, business workstations and home computer setups. It provides a practical way to mount two compatible displays while making more efficient use of desktop space.

Performance tier: Dual-monitor desktop mounting accessory

Uses: Dual-monitor office workstations, home offices, business computing, multitasking, productivity setups, computer workstations

Overview

The KALOC DZ220-J is a heavy-duty dual desk mount monitor arm bracket designed for multi-monitor workplace efficiency. Compatible with 17-32 inch screens (up to 27" per spec sheet), it supports up to 9kg per monitor with VESA 75x75mm and 100x100mm mounting patterns. Built from durable alloy steel (SPCC material), it features a robust desktop stand installation with adjustable tilt up to 70 degrees for optimal viewing angles. Perfect for home offices, workstations, trading desks, and professional environments needing dual-screen productivity. The sleek black finish complements modern setups, while the compact 47x35x15 cm packaging ensures easy shipping and storage. Manufactured in China with KALOC quality standards for reliable South African use.

Description

Dual Monitor Mounting for a More Organised Workspace

The Unique KALOC DZ220-J Dual Desk Mount Monitor Arm Bracket is designed to accommodate two monitors on a single desktop mounting system. It provides a practical solution for users who work with multiple displays and want to organise their computer workstation more efficiently. By mounting two compatible monitors, users can create a dedicated dual-screen environment for everyday computing, business applications and professional productivity.

Dual-Screen Support and Load Capacity

This monitor mounting bracket supports a stated screen size range of 17 to 32 inches, with a recommended range of 17 to 27 inches. It accommodates a maximum load of 9kg per monitor, providing a combined load capacity of 18kg for a dual-screen configuration. The specified supported screen sizes include 17, 19, 24, 25 and 27 inches. Always check the monitor dimensions, mounting pattern and weight before installation.

Durable SPCC Alloy Steel Construction

Constructed from SPCC alloy steel, the KALOC DZ220-J is designed to provide a solid mounting structure for compatible displays. Its black finish offers a professional appearance that integrates neatly into modern office furniture, home computer desks and dedicated workstation environments.

VESA Compatibility and Adjustable Viewing Angle

The bracket supports VESA mounting patterns of 75 x 75mm and 100 x 100mm, allowing it to accommodate monitors with either compatible mounting configuration. Its maximum tilt angle of +/-70 degrees provides flexibility when positioning the displays to achieve a more suitable viewing angle.

Suitable for Home and Professional Workstations

Whether used for business applications, office productivity or a home computing environment, the KALOC DZ220-J provides a convenient dual-monitor mounting solution. It is particularly useful for users who regularly work across multiple applications, documents or information sources and prefer a two-screen workstation arrangement.

Features

The Unique KALOC DZ220-J combines dual-monitor support, strong steel construction and VESA mounting compatibility in a desktop mounting solution.

- Dual Monitor Support: Designed to accommodate two monitors in one workstation setup.
- Wide Monitor Size Range: Supports a stated monitor size range of 17 to 32 inches, with a recommended range of 17 to 27 inches.
- 9kg Load Capacity Per Monitor: Supports up to 9kg per screen, with a combined maximum load capacity of 18kg.

- SPCC Alloy Steel Construction: Durable metal construction provides a sturdy mounting structure.
- Universal VESA Compatibility: Supports 75 x 75mm and 100 x 100mm VESA mounting patterns.
- Adjustable Tilt: Maximum tilt angle of +/-70 degrees for flexible screen positioning.
- Desktop Installation: Designed for desktop mounting rather than wall installation.
- Black Finish: A professional black appearance suitable for different workstation environments.
- Home and Office Application: Suitable for personal computing, business workstations and professional office environments.

Dual Monitor Support
Mount 2 monitors simultaneously (17-32 inch each, up to 27" recommended) for enhanced productivity.

9kg Load Capacity
Supports up to 9kg (19.8 lbs) per monitor, suitable for mid-range LED/LCD screens.

Universal VESA Compatibility
Adapts to VESA 75x75mm and 100x100mm mounting patterns for most monitors.

Alloy Steel Construction
SPCC material ensures durability, stability, and long-term reliability.

Adjustable Tilt Range
+/-70degrees maximum tilt for ergonomic viewing angles, reducing neck strain.

Desktop Stand Installation
Stand-mounted design fits securely on desks, no wall drilling required.

Black Finish
Sleek black colour complements modern office and home setups.

Compact Packaging
47x35x15 cm single package, 6kg gross weight for easy handling.

Home/Office Use
Ideal for multi-monitor workstations, gaming rigs, trading desks, and professional environments.

FAQ

What monitor sizes are compatible with the KALOC DZ220-J?

The KALOC DZ220-J is specified for monitors ranging from 17 to 32 inches. Its recommended monitor size range is 17 to 27 inches, with 17, 19, 24, 25 and 27-inch screens specifically listed as supported sizes. Check the monitor's weight and VESA mounting pattern before installation.

How many monitors can the KALOC DZ220-J support?

The KALOC DZ220-J is designed for a dual-monitor configuration and can accommodate two compatible monitors simultaneously.

What is the maximum weight capacity of this dual monitor mount?

The bracket supports up to 9kg per monitor, providing a combined maximum load capacity of 18kg for both monitors.

Which VESA mounting patterns does the KALOC DZ220-J support?

This dual monitor bracket supports two VESA mounting patterns: 75 x 75mm and 100 x 100mm. Your monitors must have one of these compatible mounting configurations.

Can I adjust the viewing angle of the monitors?

Yes. The KALOC DZ220-J features a maximum tilt angle of +/-70 degrees, allowing the monitors to be angled to suit your preferred viewing position.

What material is the KALOC DZ220-J monitor bracket made from?

The bracket is constructed from SPCC alloy steel and features a black finish.

Is the KALOC DZ220-J suitable for home and office use?

Yes. It is designed for home and office applications, including dual-screen computer workstations, business environments and everyday productivity setups.

Does the KALOC DZ220-J require desktop installation?

Yes. This model is specified as a desktop mounting bracket with stand-style installation. It is designed for desktop mounting rather than wall mounting.

Can I use two monitors with different screen sizes?

The bracket is designed to support two monitors, and the stated monitor size range is 17 to 32 inches. Both monitors must meet the individual weight limit of 9kg and have a compatible VESA mounting pattern. Check the available mounting space and monitor dimensions before purchasing.

What are the package dimensions and gross weight?

The KALOC DZ220-J has package dimensions of 47 x 35 x 15cm and a gross package weight of 6.0kg.
