Featuring advanced SERL recording technology, each disc supports up to 700MB or 80 minutes of recording and can be rewritten multiple times. Buy now from our website for quick delivery anywhere in South Africa.

Overview Summary

Verbatim 43148 DataLifePlus SERL 700MB 80 Minute CD-RW 12x 10 Pack

The Verbatim DataLifePlus CD-RW pack is designed for users who need dependable rewritable storage for everyday data recording and archiving. Each disc offers 700MB of storage capacity or up to 80 minutes of recording time and supports high speed recording up to 12x. The included jewel cases help protect each disc during storage and transport.

Built with Verbatim's Super Eutectic Recording Layer (SERL) technology, these discs provide stable recording performance,

low signal noise and long term reliability. They are suitable for repeated recording and erasing, making them ideal for backups, file transfers, music collections and document storage.

Performance tier: Professional rewritable optical media

Uses: Data backup, file storage, document archiving, music recording, photo storage, software transfer

Description

The Verbatim 43148 DataLifePlus CD-RW media is designed for users who require dependable rewritable optical storage for everyday computing and archival tasks. Each disc stores up to 700MB of digital data or 80 minutes of audio, making it suitable for backing up important files, sharing presentations, recording music or transferring documents between compatible devices.

Verbatim incorporates its proven Super Eutectic Recording Layer technology to deliver consistent recording quality and stable erase and rewrite performance. The discs are engineered for repeated use, supporting a minimum of 1000 rewrite cycles when used with compatible drives. Individual jewel cases provide added protection against scratches and dust while making organization and storage easier.

Features

The Verbatim DataLifePlus CD-RW media combines reliable recording performance with reusable storage, helping reduce waste while providing dependable data retention.

- 700MB storage capacity or up to 80 minutes recording time
- Supports recording speeds up to 12x
- Rewritable media for repeated use
- Minimum 1000 rewrite cycles
- SERL recording layer technology
- Low signal noise for reliable recording
- Scratch resistant disc surface
- Individual jewel case for each disc
- Suitable for data, music, photos and backups
- Broad compatibility with compatible CD-RW drives

Rewritable for Multiple Uses
When drive manufacturers test their products, they use Verbatim media. It's the global No.1 for a reason - guaranteed quality! Due to the extensive research and development undertaken over the past 50 years, Verbatim is able to provide the highest quality discs which ensure that all your data will be safely stored and will last a lifetime.

Long Lifetime
Optical discs provide the best solution for long-term safe and secure storage of your important files - ideal for all your precious photos, videos and documents that you want to keep forever. They are dust and water resistant and can withstand wide changes in temperature and humidity.

Multiple-uses
Verbatim rewritable discs can be written and rewritten over and over again. SERL technology allows continual rewrites without the loss of quality or sound degradation.
