ComX Computers

Product Specification Sheet

The AOC USB monitor e1659FWU, also known as the myConnect is a light, portable LED monitor with a slim profile of just 22.9mm, making it easy to carry with you wherever you go. It requires only a single USB 3.0 cable for both power and display signal.

Simply plug the monitor into a USB port on your laptop and it is ready for use - no more hassle finding a power point and carrying bulky cables around. With the ability to support multiple monitor connections and compatibility with both PCs and Macs, the E1659FWU is an ideal second monitor and extended display for notebook and desktop PC users. USB 3.0 features a range of impressive advantages over USB 2.0, with synchronous data transmission and a full duplex interface for improved speed, and nearly double the power supply.

With a data rate of 5 Gbps, USB 3.0 is able to perform 10 times faster than USB 2.0. For even more convenience, the monitor stand can be rotated, allowing to choose between a landscape or portrait orientation (pivot) - useful for desktop presentations, document viewing, texts or mail clients. If you want to enhance your workspace and efficiency wherever you go, the e1659Fwu is the right choice!

Features:

- Powered by High Speed USB 3.0 cable for both power and display signal
- Simply plug the monitor into a USB port on your laptop and it is ready for use.
- Supporting multiple monitor connections and compatibility with both PCs and Macs
- Slim, Light, Portable with a slim profile of 22.9mm is easy to carry wherever you go.
- USB 3.0 connection for high transfer rates and high quality image
- Brighter panel with brightness control
- VESA 75mm wall mount compliant
- Carry case included
