The ECOFLOW Car Charger provides reliable and efficient charging for all ECOFLOW Portable Power Stations with a 1.5 meter lead for flexible vehicle use. Built for safety and convenience, it is ideal for travel, outdoor activities, and emergencies. Durable and compact, it ensures your devices stay powered wherever you go.

Specifications

Overview Summary

Product:ECOFLOW Car Charger

The ECOFLOW Car Charger is designed to provide fast and convenient charging for all ECOFLOW Portable Power Stations directly from your vehicle. With a 1.5 meter lead, it allows easy connection and flexibility for charging on the go, ensuring your devices and power stations are always ready when you need them.

This high-quality charger is built for efficiency and safety, featuring stable power output and robust construction. It is ideal for road trips, outdoor adventures, and emergency situations, making it a reliable companion for users who depend on portable power.

ComX Computers

Product Specification Sheet

Performance tier:Premium

Uses:Charging portable power stations, car trips, outdoor use, emergency power backup

Overview

Designed to seamlessly connect your EcoFlow power stations to your vehicle's car charger through the cigarette lighter socket. The XT60i connector is a unique feature that automatically detects the current, distinguishing between car charging and solar input, with a maximum current limit of 8A for car charging.

Description

The ECOFLOW Car Charger is designed for portable power users who require fast, safe, and reliable charging on the move. Its 1.5 meter lead ensures easy connection in vehicles of all sizes while maintaining a clean and organized setup. The charger is compatible with all ECOFLOW Portable Power Stations, making it an essential accessory for outdoor enthusiasts, road travelers, and emergency preparedness.

Constructed with durability in mind, it offers robust performance with multiple built-in safety protections. Whether you are camping, on a long drive, or facing a power outage, this charger keeps your power stations ready and fully operational. Its lightweight design also ensures it is easy to carry and store in your vehicle.

Features

- Connect EcoFlow power stations to your car charger
- Industry-leading XT60i connector for automatic current recognition to protect your vehicle
- Safe and secure: Protects your car from current overload
- Hassle-free charging without worrying about car model differences
- Enjoy the convenience of a reliable car charging solution.
