See Your Drives Reborn Green

- USB 3.2 Gen2 (10Gbps) interface
- Tool-free design
- Compatible with 2.5 inch SATA HDD/SSD
- Made with 85% PCR (Post-Consumer Recycled) plastic
- Convenient safety lock

Features:

Save Your Drives, Save the Earth

The EC600 is the first and only HDD/SDD enclosure to utilize PCR materials. The outer casing of the EC600 is locally manufactured from 85% PCR (Post-Consumer Recycled) plastic and other locally sourced materials to minimize environmental impact and maximize the restoration of Mother Earth.

A Cleaner Product Cycle

The EC600's reduced carbon footprint equates to 74% less CO2 emitted throughout its product cycle. The EC600 comes to you in FSC (Forest Stewardship Council) certified packaging that ensures sustainable forestry practices. Users not only protect the environment by reducing electronic waste through reusing old drives, the drive itself is eco-friendly.

*Using products with FSC certification ensures that they come from certified sustainable forestry, which helps protect forest ecology, biodiversity, and resources, and enables companies to fulfill their social responsibility.

A New Lease on Life

Reduce, reuse, recycle! The EC600 enclosure addresses premature obsolescence in electronics by extending the lifespan of old drives. Give your drives a second chance at life!

Tool-free Convenience

The EC600 emphasizes ultimate convenience by utilizing a USB 3.2 Gen2 (10Gbps) interface with a USB Micro-B connector. Old drives can be installed in a snap without the need for any tools and its safety lock ensures everything stays in place.
