Specifications

About this product

The Everki Glide 17.3" Laptop Backpack is a sleek and durable carry solution designed to safely accommodate laptops up to 17.3" (approx. 28 x 3.81 x 41.9 cm), combining ergonomic support, corner-guard protection and travel-friendly organisation in a refined minimalist design for professionals on the move.

Overview Summary

Performance tier:Premium commuter/back-travel tier

Uses:Laptop commuting, business travel, overnight packing, tech organisation

With a capacity of approximately 26.5 litres and external dimensions around 44 x 32 x 17 cm, the Glide EKP129 brings together refined everyday functionality with a low-profile silhouette. Everki Glide 17.3" Laptop Backpack Its built-in corner-guard protection system safeguards the laptop's most vulnerable edges, while wide ergonomic shoulder straps and padded lumbar support ensure comfort during extended wear.

The premium design features a high-contrast orange interior lining, heavy-duty metal zipper pulls, reflective safety strips and a felt-lined tablet pocket. Whether you're cycling through city traffic or boarding a flight with tech gear in tow, this backpack offers balance, durability and style for your daily commute or weekend trip.

Description

The EVERKI Glide EKP129 is engineered for the mobile professional who values both form and function. The exterior maintains a slim, structured profile that tucks easily into daily routines yet unpacks to reveal spacious compartments for your laptop, tablet, accessories and personal items. The laptop slot accommodates up to 17.3" devices (approx. 28 x 3.81 x 41.9 cm) and is reinforced with a corner-guard system to absorb impacts at the most vulnerable points.

Inside, the orange high-contrast lining aids visibility so you can locate gear quickly. With heavy-duty metal pulls, wide ergonomic straps, padded lumbar support and integrated reflective strips, this backpack is comfortable and safe for both urban commutes and travel. The build quality and attention to detail ensure the Glide will serve reliably over many years of daily wear.

Features

Key design and usability features include:

- Dedicated laptop compartment that fits up to 17.3" (approx. 28 x 3.81 x 41.9 cm) notebook and a tablet up to 10".
- Integrated corner-guard system for additional protection of laptop corners against knocks and falls.
- Slim, commuter-friendly profile that is ideal for bike, motorcycle or rail commuting.
- High-contrast orange interior lining to improve visibility of contents and faster access.
- Heavy-duty zippers with large metal pulls for durability and ease of use.
- Reflective safety strips on front and sides for enhanced visibility during low-light conditions.
- Padded lumbar support and adjustable ergonomic shoulder straps balance the load and promote comfort.
- Limited Lifetime Warranty from EVERKI for manufacturing defects.

Integrated Laptop Corner Guard System

Your laptop is one of your most prized possessions, so it deserves special treatment. The Glide goes the extra mile to protect your device from bumps and scratches; in addition to a felt lining and ample padding, this bag features Everki's innovative integrated laptop corner guard system - molded shock-absorbing pads embedded into the bottom lining that protect the corners of your device, which are the areas manufacturers have identified as the most vulnerable and commonly damaged. Let Everki take care of your laptop so you can focus on the job or on the journey.

Wide, Ergonomic Shoulder Straps with Zippered Stash Pocket

Carrying a laptop and all of its accessories can wear a person out quickly. Luckily for the weary traveler, the Glide comes with wide, pillow-soft straps that pitch in to help its wearer shoulder the load over long periods of time. These straps are easily adjustable to ensure maximum comfort, and the left-hand strap features a convenient, zippered stash pocket ideal for storing quick-access items like ID, cash, gum, tissue, or anything else the traveler might need close at hand.

Dedicated 17.3" Laptop Slot

Whether you are the student, the professional, or the tourist, today's backpack is incomplete without a laptop compartment. The Glide safely stores your computer in its own thickly-padded, felt-lined pocket, where it sits snugly and holds down using a soft strap. This pocket is equipped with anti-shock foam padding to best protect your device from bumps, scratches, and other hazards of the road and is easily accessible for everyday use or when checking through airport security.

Felt-Lined iPad/Kindle/Tablet Pocket

With the Glide's dedicated slot designed to hold your iPad, Kindle, or other tablet PC, never again will you leave your device vulnerable to the ravages of an ill-fitting compartment. The rising popularity of tablets and their increasing importance in school and industry make this feature a must when purchasing a new laptop bag. This unique pocket is easily accessible within the bag's laptop compartment and comes lined with the same soft felt and holds down with the same strap as the laptop, so you can rest assured that your iPad or tablet PC will stay just as well protected as your computer.

Spacious, Well-Organized Compartments

The Glide packs a lot of space into its compact form. A large, zippered see-it-all pocket and two wide slots inside the laptop compartment provide room for cables, adapters, and peripherals, and the bag's second compartment comes with an expandable Velcro pocket, a key ring buckle, and a range of slots for pens and business cards. In addition, an expandable quick-access pocket with button strap, located at the front of the bag, allows the Glide's wearer to quickly store and retrieve snacks or something to read for the trip.

What's in the Box

- EVERKI Glide EKP129 Laptop Backpack
- User documentation / warranty information

FAQ**Q: Will this backpack fit a 16-inch laptop?**

A: Yes - the laptop compartment is rated for up to 17.3" devices (about 28 x 3.81 x 41.9 cm), so a 16-inch machine will fit comfortably within its capacity.

Q: Is the backpack suitable for air travel or commuting by bike?

A: Absolutely - the slim profile and ergonomic straps make it ideal for biking or daily commuting, and its durable construction and size comply with many airline carry-on guidelines.

Q: Does it protect my laptop effectively?

ComX Computers

Product Specification Sheet

A: Yes - the integrated corner-guard system protects vulnerable laptop corners from impacts and the padded laptop compartment helps absorb shocks.
