EVERKI CONCEPT PREMIUM CHECKPOINT NB BACKPACK;fits notebooks or laptops UP TO 17.3" (28 x 3.81 x 41.9 cm)

Product Overview

EVERKI CONCEPT PREMIUM CHECKPOINT NB BACKPACK; fits notebooks or laptops up to 17.3" (28 x 3.81 x 41.9 cm)

Specifications

Features:

1. Checkpoint Friendly 17.3" Laptop/Tablet Compartment
It is no myth that airport security checkpoints impose more and more rules and restrictions all the time. Breeze through security with the Concept's Checkpoint Friendly laptop/tablet compartment. Simply open the compartment 180 degrees, lay the bag flat on the conveyor, and watch your device pass through the x-ray machine without the mess and inconvenience of removing it - and should you for any reason be required to take it out of its slot, you can do so easily, without rearranging the rest of the bag's contents. Fast, simple, and effective.

2. Shell-Protected Quick-Access Sunglass/Gadget Case
Protecting your expensive eyewear and other delicate gear has never been simpler. The Concept's innovative, zippered hard-shell case, embedded into the top of the bag where contents are under the least amount of pressure, provides a good fit for glasses, sunglasses or other small, fragile articles. It also doubles as a spot to store your phone, mp3 player or portable media device and comes equipped with a headphone cable outlet for added, no-mess functionality.

3. Patent-Pending Corner-Guard Protection System
Your laptop is one of your most prized possessions, so it deserves special treatment. The Concept goes the extra mile to protect your computer from bumps and scratches; in addition to a felt lining and ample padding, this bag's laptop compartment features Everki's patent-pending corner-guard protection system - molded shock-absorbing corners that protect your device around the edges, which are the areas manufacturers have identified as the most vulnerable and commonly damaged. Let Everki take care of your cargo, so you can focus on the job or on the journey.

4. High-Grade Leather Handle and Accents
Not only is the Concept light and practical, but it also boasts a ton of quality features and details that add to its stylish appeal - leather accents, high-grade nylon straps, oversized zippers, and a reflective metal logo, to name a few. Everki also included a leather handle to provide a firm and comfortable grip on your cargo, and all of the Concept's accents are manufactured using the best quality materials to maintain a sharp and professional appearance that stands the test of time.

5. Water-Repellant Ballistic Nylon Exterior and Weather Cover
Everki takes the safety of your belongings as seriously as you do. That's why the Concept utilizes a durable, water-repellent nylon shell that minimizes potential harm posed by spilled drinks by localizing droplets and allowing them to easily wipe away. An additional weather cover, stowed in a stash pocket on the bag's underside, stretches to neatly slip over its entire exposed surface to protect contents from rain, snow and dust. Accidents, spills, and bad weather are bound to happen, but they are of little concern with the Everki Concept.

6. Spacious, Well-Organized Compartments
Along with its laptop/tablet compartment, Everki outfitted this backpack with ample extra space. Main compartment features large zippers and a quick-access storage area ideal for papers and file folders, separated by a divider from peripherals and other accessories and with plenty of room left over for a sweater or coat to keep both tourist and professional warm on those long international flights. Another spacious and versatile, zippered compartment contains a range of slots and pockets for business cards, USB drives, keys, and other smaller items, as well as a larger pocket perfect for adaptors and other essentials.
