Overview:

Epson FX-2190IIN 136 Column 9-Pin Dot Matrix Printer
The Epson FX-2190IIN delivers high-speed, reliable printing designed for busy offices and demanding environments. With advanced dot matrix technology, this printer handles large-volume print jobs efficiently, offering exceptional performance for invoices, reports, and shipping documents. Its compact, modern design seamlessly integrates into any workspace while providing versatile connectivity options, including USB, parallel, and network LAN.

Description:

The FX-2190IIN is a 9-pin dot matrix printer capable of producing 136-column prints at 240x144 dpi. It supports up to six plus one original carbon copies, making it ideal for multi-part forms. Key advantages include ultra-speed draft printing at 735 characters per second, long-lasting consumables, and low energy consumption. The printer is engineered for durability, delivering 25,000 power-on hours, and it offers flexible connection options with Ethernet and serial ports.

Features:

Fast Printing for High-Volume Work
This printer excels in environments that demand rapid output. Its ultra-speed draft mode ensures large batches of invoices, stock reports, and freight documents are completed quickly, improving overall productivity.

Reliable Performance
Built on Epson's trusted dot matrix technology, the FX-2190IIN offers enhanced durability. It has an extended mean time between failures, supporting long periods of continuous operation without frequent maintenance.

Compact and Modern Design
The printer's sleek and updated appearance complements professional workspaces. Its design ensures it fits seamlessly on desks or in office setups without occupying unnecessary space.

Flexible Connectivity Options
Equipped with USB, parallel, and network LAN connections, the FX-2190IIN integrates easily into existing office networks. This flexibility allows multiple users to share the printer without any complicated setup.
