Overview:

Visio Standard 2024

- Create professional diagrams easily with ready-made templates and shapes
- Get started quickly with a familiar Office-like experience
- Use your finger or pen to draw and take notes naturally on touch-enabled devices
- Create database visualizations using built-in database model diagrams
- Collaborate with others by adding and replying to comments directly within Visio

Features:

Turn complex ideas into clear visuals

Easily create versatile diagrams, organisation charts, maps, workflows and home or office plans using a rich set of shapes and templates. Add comments and share diagrams with anyone across your organisation.

Data-driven diagramming

Automatically generate org charts from data sources like Excel, Exchange or Azure Active Directory.

Flexible editing

Change shapes in existing diagrams without losing your layout and shape connections, making it simple to adjust the look of your diagram without losing the work you've already done.

AutoCAD support

Ability to import DWG files, including enhanced file format support.

Versatile templates and thousands of shapes

Choose from dozens of templates, including built-in wireframes, and thousands of customisable shapes to transform numbers, ideas and other data points into coherent and impactful stories.

In-app commenting

Associate comments with specific shapes for clearer stakeholder feedback.
