Specifications

Overview:

Everki Laptop Bike Messenger, up to 14.1-Inch/MacBook Pro 15 - Black (EKS660)

The hipster Laptop Bike Messenger from EVERKI offers durability, stability, comfort and protection for urban cyclists and commuters alike. This bag offers a large, open space in the main compartment for quick and easy access, and lots of organizational options too. Your commute to the office just got a lot cooler.

The Laptop Bike Messenger

The Laptop Bike Messenger from EVERKI is the original hipster bag for an urban setting. More street-smart than a backpack, the messenger has a stylish, metropolitan flair and is perfect for carrying multiple devices. The cross-body design gives complete hands-free capability, while giving you open access to your things without removing the bag. And, like all EVERKI bags, we e designed the Laptop Bike Messenger so you can store just what you need within reach, with multi-functioning side pockets that accommodate a water bottle and keys and a quick-access pocket on the large front flap. You l also find the large and free-flowing main compartment big enough for a jacket, books and legal-sized folders; as well as multiple slots, pockets

and pouches to keep things neat and organized. Urban style that office-ready.

Dedicated pockets for laptop and tablet

You often find yourself toting both a laptop and a tablet when you commute to the office every day. The Laptop Bike Messenger is designed with this functionality in mind. The bag offers an individual pocket for a laptop, as well as a dedicated slot for today larger tablets. The laptop pocket is padded on the bottom, front and back to safely secure your device from bumps and knocks - and the tablet pocket is also padded to prevent scratches. So whether you e riding around town on a bike or taking the train, your laptop and tablet are safe in the ContemPRO Laptop Bike Messenger.

Personalizable window

In every area of your life, you want an outlet of self-expression, even in your business bag; so we crafted the ContemPRO series just for that. Like every bag in the ContemPRO series, the Laptop Bike Messenger has a personalizable window on the front of the bag that can be customized. The bag comes with a set of images, so choose the image you like or design your own to match your personal style. The window on the front of the bag helps you do what you always do - stand out in a crowd.

Loops and strips for safety and security

Safety and security are not overlooked on the ContemPRO Laptop Bike Messenger. You wouldn ride your bike without taking a security lock along, so we designed a place on the Laptop Bike Messenger to conveniently hang your U-lock for easy storage. It keeps your lock out of the way, and won bump and bang into your laptop, since it not in the main compartment with your technology. There also a light holder on the bottom of the bag to hang your blinky light, and reflective strips on the front flap and straps for improved visibility when riding at night.

Stabilizing cross-body strap

Messenger bag slipping while you ride your bike? Not with the ContemPRO Laptop Bike Messenger. We e added a cross-body strap to stabilize the bag. It attaches at the bottom of the bag and connects to the bag strap to help keep the bag in place while riding.

Trolley handle pass-through

When you e traveling with many bags, the trolley handle pass-through on the back of the Laptop Bike Messenger allows you to double your efforts. Simply slip the bag onto the handle of your roller luggage and you e ready to wheel through the airport.

Padded carry handle

Sometimes you prefer to carry your bag, rather than wear it. The Laptop Bike Messenger is designed with a padded carry handle; so it easy and comfortable to carry your bag in one hand.

High-contrast lining

All EVERKI interiors are stylish, high-contrast orange because we know how frustrating it is to mistakenly leave a compartment unzipped, and how difficult it is to organize against a black background. Savvy and stylish.

Peace of mind

EVERKI makes products of value because we value our relationships. Every product EVERKI makes comes with our Limited Lifetime Warranty which covers manufacturing defects over the entire life of the product. EVERKI. We give you peace of mind.
