Specifications

About this product

The EZCast 2 Wireless Display Receiver allows you to wirelessly stream content from your devices to your TV or monitor in stunning 4K resolution. With support for multiple display protocols and dual-band Wi-Fi, it offers a seamless and secure viewing experience. Ideal for both home entertainment and professional presentations, the EZCast 2 is your gateway to a smarter display solution.

Overview Summary

The EZCast 2 Wireless Display Receiver is a compact and versatile device designed to wirelessly stream content from your smartphone, tablet, or computer to your TV or monitor. With support for 4K resolution and dual-band Wi-Fi, it ensures a stable and high-quality viewing experience.

Performance tier: Mid-range

Uses: Streaming movies, presentations, gaming, screen mirroring, media sharing

Overview

The EZCast 2 offers a range of features to enhance your viewing experience:

- 4K Resolution Support: Enjoy crisp and clear visuals with up to 3840x2160@30p output.
- Dual-Band Wi-Fi: Connect seamlessly with 2.4G/5G Wi-Fi for optimal performance.
- Wide Compatibility: Supports iOS, Android, Windows, and macOS devices.
- Multiple Display Protocols: Compatible with DLNA, Miracast, AirPlay, and Google Home.
- EZCast App Integration: Create and manage personalized video playlists with the EZCast app.

- Secure Transmission: Employs advanced data scrambling for secure content protection.

Description

The EZCast 2 Wireless Display Receiver is a sleek and compact device that transforms your regular TV or monitor into a smart display. By connecting it to your HDMI port and powering it via USB, you can wirelessly stream content from various devices. Whether you're watching movies, giving presentations, or playing games, the EZCast 2 ensures a smooth and immersive experience. Its wide compatibility and support for multiple display protocols make it a versatile choice for both personal and professional use.

Features:

Display Perfectly Make Content Big, Clear, and Stable
EZCast 2 is designed to make connecting and sharing content effortless and powerful. Featuring an external antenna that can be flexibly positioned for optimal signal stability, it guarantees a reliable connection. Simply plug it into your TV or monitor and easily display your videos on a larger screen in stunning 4K resolution.

Ultimate Compatibility Perfect for Any Operating System
EZCast 2 is compatible with various operating systems, including Android, iOS, Windows, and macOS, allowing seamless connectivity across all your devices.

Elevate Connectivity Support Popular Display Protocols
EZCast 2 offers robust compatibility with various protocols, including DLNA, Google Home, YouTube TV, and casting from the Chrome browser, enabling you to easily connect to your favorite videos and enjoy an enhanced, vibrant viewing experience.

Dual Band Wi-Fi Network
With 2.4G/5G dual band Wi-Fi, the network ensures optimized connectivity, delivering a perfect balance of wider coverage and faster data transmission.

Mirror or Extend Mode
Mirror content to a TV or extend your workspace for enhanced productivity, giving you greater flexibility in your work or entertainment setup.

Transmission Security
Employs advanced data scrambling to give you peace of mind, keeping your data safe from breaches and ensuring secure content protection at all times.

Connect to TV
Plug EZCast 2 dongle into an HDMI port on TV.

Connect to power
Plug the micro USB cable to EZCast 2 dongle, and power it up by connecting the USB cable to a 5V/1A adapter.

Create your playlist from your phone
With the EZCast App for iOS and Android, you can automatically play your personalized video playlists or enjoy recommended videos tailored to your interests.
