Specifications

Overview Summary:

The Fanvil CS30 portable conference speakerphone is a practical solution for clear and reliable communication in meetings of any size. Designed for flexibility, it connects easily via Bluetooth or USB-C, making it simple to use with laptops, tablets, and smartphones for everyday work calls.

With a compact round design and intuitive touch controls, the CS30 fits neatly into modern workspaces or travel bags. Its full-duplex audio and noise suppression help keep conversations natural and easy to follow, whether you are working from home or hosting small team discussions. Buy now and enjoy clearer calls for your business or home office.

Performance tier:Mid-range

Uses:online meetings, conference calls, remote work, small office collaboration, home office communication

Overview:

Product Summary

The Fanvil CS30 is a compact and portable conference speakerphone designed for clear communication in small to mid-sized meeting spaces. With wireless and wired connectivity options, it supports flexible use across PCs, tablets, and smartphones while delivering consistent voice clarity for professional calls.

As a high-performance speakerphone that is portable and flexible for conferences, Fanvil CS30 with built-in Bluetooth allows it to connect your PC, tablet and smartphone via NFC/Bluetooth wireless pairing as well as USB wired connection.

Description:

The Fanvil CS30 portable conference speakerphone delivers full duplex audio with advanced noise and echo suppression, ensuring natural two-way conversations. Its 3 meter voice pickup range, automatic gain control, and powerful 5W speaker make it ideal for huddle rooms, remote meetings, and on-the-go collaboration. Touch controls allow intuitive operation while multiple connection options provide seamless compatibility with modern devices.

Features:

Designed for Clear Conference Calls

The CS30 speakerphone is engineered to enhance voice communication during meetings and online calls. Full duplex audio allows participants to speak and listen simultaneously without interruptions, creating a smooth and realistic conversation experience.

Smart Audio Performance

Advanced sound processing technologies help reduce background noise and echo. Automatic gain control balances voice levels so all participants are heard clearly, even when speaking from different distances.

Flexible Connectivity Options

Connect the CS30 easily to a wide range of devices using wireless or wired methods.

- Bluetooth and NFC for fast wireless pairing
- USB connection for stable wired communication

This flexibility makes it suitable for office desks, meeting rooms, and mobile work setups.

Portable Design with Touch Controls

The compact form factor allows the CS30 to be carried effortlessly between workspaces. Touch volume buttons and a touch-type microphone switch button provide simple and responsive control during calls.

Voice Pickup and Speaker Power

Designed to perform in collaborative environments, the CS30 captures voices clearly within a 3 meter range and outputs sound through a built-in 5W speaker for balanced audio coverage.

- 3 meter voice pickup distance
- Integrated 5W speaker
- Six touch buttons for call control

Ideal Use Scenarios

The Fanvil CS30 conference speakerphone is well suited for remote meetings, team discussions, and personal office use, offering reliable audio quality and convenient connectivity in a portable design.
