Performance tier:Premium business

Uses:Executive offices, business communication, VoIP calling, SIP telephony, office desks, call management, conference calls

Overview:

Fanvil V65 Prime Business Phone

The Fanvil V65 Prime Business Phone is designed for executives, managers and professional users who need a reliable business telephone with advanced connectivity and flexible call handling. Its refined design combines a 4.3-inch 480 x 272 IPS colour display with an adjustable screen, 45 DSS keys and support for up to 20 SIP lines. Built-in Bluetooth 4.2 and dual-band 2.4GHz and 5GHz Wi-Fi provide additional flexibility for modern business communication environments.

Description:

The Fanvil V65 is more than a standard business telephone. It combines a professional desktop design with a Linux-based system, high-quality audio and extensive connectivity options. The adjustable display makes the screen easier to position for different users, while the 45 DSS keys provide quick access to contacts, extensions and commonly used functions.

For organisations using SIP-based phone systems, the V65 supports up to 20 SIP lines and includes a 2,000-entry local phone book. Six-way local audio conferencing allows multiple participants to join a call directly from the handset, making the phone suitable for busy offices, management teams and reception environments.

The V65 also provides wired network connectivity through two Gigabit Ethernet ports, with PoE support for convenient installation. Bluetooth 4.2, dual-band Wi-Fi and USB connectivity add further options for headsets and compatible accessories.

Features:

Professional Business Communication

The 4.3-inch IPS colour screen provides a clear interface for managing calls, contacts and phone settings. The adjustable screen allows users to position the display for improved visibility, while the 45 DSS keys make frequently used functions readily accessible.

The phone is also designed with an antibacterial surface, adding a practical consideration for shared office environments.

Key capabilities include:

- 4.3-inch 480 x 272 IPS colour display
- Adjustable and tiltable screen
- 45 DSS keys

ComX Computers

Product Specification Sheet

- Up to 20 SIP lines
- 2,000-entry local phone book
- 6-way local audio conference
- Wired handset
- Antibacterial surface

Flexible Network and Connectivity

The Fanvil V65 provides two 10/100/1000 Mbps Gigabit Ethernet ports, giving it the network performance required for modern business environments. Power over Ethernet support can simplify installation by allowing compatible network infrastructure to provide power to the phone.

For wireless installations, built-in dual-band 2.4GHz and 5GHz Wi-Fi provides an alternative to a wired network connection. Bluetooth 4.2 also allows the phone to connect with compatible wireless devices.

Connectivity includes:

- 2 x Gigabit Ethernet ports
- PoE support
- Built-in 2.4GHz and 5GHz Wi-Fi
- Bluetooth 4.2
- USB Type-A port
- USB headset support
- EHS support
- IPv6 support

Clear Audio and Conference Calling

The V65 supports wideband G.722 and Opus codecs for high-quality voice communication, alongside a broad selection of narrowband codecs. Its 6-way local conference capability allows users to conduct group calls without requiring additional conference hardware.

Supported audio codecs include:

- Wideband: G.722, Opus
- Narrowband: G.711, G.723.1, G.726, G.729A/B and iLBC
- 6-way local audio conference

Designed for SIP Business Phone Systems

With support for up to 20 SIP lines, the Fanvil V65 is suited to businesses using IP PBX and hosted VoIP systems. Its Linux-based platform provides the foundation for business telephone functions while the extensive DSS key layout gives users fast access to extensions, contacts and frequently used features.

The V65 Prime Business Phone is identified by part number / SKU FAN-V65, making it easy to match the product with purchasing records and compatible business communication equipment.
