Performance tier: Professional business DECT handset

Uses: business communications, warehouse communications, office mobility, retail communications, hospitality, healthcare communications, team communication

Description

The Fanvil W620D is a portable DECT handset designed for professional communication where users need the freedom to move around while remaining connected to a compatible DECT phone system. The handset is designed to work with the Fanvil W710D DECT base station and provides four SIP lines and one internal extension for business communication applications.

A 2.4 inch 240 x 320 TFT colour display provides a clear interface for everyday phone functions. The W620D uses a 3-core CPU architecture to provide responsive user interface operation and includes dedicated controls for calling, volume adjustment, hands-free operation, phone book access, mute, DSS and call forwarding.

For communication quality, the W620D provides HD voice with intelligent noise reduction and an acoustic shield. The handset has two microphones and a 2 W speaker for hands-free communication. Bluetooth 5.0 provides wireless headset connectivity, while the USB Type-C interface supports wired headset use.

The handset is equipped with a 3000 mAh rechargeable battery. Fanvil specifies up to 13 hours of talk time and up to 240 hours of standby time under ideal conditions. The W620D also supports incoming vibration and is designed to withstand drops from up to 1.8 metres, making it suitable for mobile professional environments.

With support for up to 1000 local contacts, a remote XML or LDAP phone book with up to 1000 entries, 600 call logs, 16 DSS keys, Push-to-Talk and six-party local conferencing, the W620D provides a versatile communication platform for offices and other professional environments.

Features

The Fanvil W620D combines cordless DECT mobility with professional business communication features in a compact handset designed for everyday use.

- 2.4 inch 240 x 320 TFT colour display for clear viewing
