Specifications

Overview:

Sporting a capless folding-cover design, support for USB 3.1, and up to 128GB of storage, ADATA UD330 USB flash drives offer convenience and speedy data transfers for work and play.

Features:

Folding-Cover Design
The UD330's folding-cover design remedies the universal dilemma of misplaced caps. Snap it open to use. Snap it close when you're done with it. You have nothing to lose.

Enhanced Durability
Manufactured with the Chip-On-Board (COB) process, which results in a drive with fewer individual parts, the UD330 is more compact, as well as more impact-, water-, and dust-resistant than flash drives made with traditional processes.

Get Up to Speed
More efficient and productive. That's what the UD330 will help you achieve thanks to fast USB 3.1 transfer speeds of up to 5Gbp/s. The drive is also backward compatible with USB 2.0.

Lots of Storage Capacity
The UD330 comes with up to 128GB of storage to carry, share, and store your documents, photos, videos, and more.

Easy Going
The UD330 features a lanyard hole for convenience and personalization. Attach it to a lanyard strap or keychain for easy carrying, or accessorize it with something that's uniquely you.
